NEW YORK, August 12, 1875.

Duncan, Sherman & Co.'s Affairs.

The discovery has been made that a large amount of the indebtedness of Duncan, Sherman & Co. is accommodation paper, in the form of drafts drawn on them by the confidential clerk in their office, and accepted by them and sold to various banks by note brokers. Of this species of paper probably not less than $500,000 is now held in Providence, where the family of Mr. Duncan has been long and favorably known, and the agent met with little difficulty in disposing of it. One bank here holds $50,000 of these acceptances, and another $35,000, and still another $30'000, besides smaller amounts in the hands of numerous persons. One bank characterizes this issuance of accommodation paper as the sharpest kind of a sharp game, the impression of the acceptor being that it was drawn against merchandise and securities, but Mr. Duncan says the proceeding was entirely straight, and more or less the practice of the house for twenty years.

The announcement is made that the letters of credit for which the father of Mr. Duncan has become responsible amount only to about $30,000.

An *Evening Post* reporter called on Duncan, Sherman & Co. in regard to their accommodation paper, about which so much was said this morning. A member of the firm informed the reporter that the bills were placed in the market in a manner which appeared perfectly legitimate to the firm, according to a practice that prevails to-day with houses of good and extensive credit. The total amount of acceptances issued was reported to be about $1,200,000. Of this $550,000 was held in Rhode Island, and a considerable part of the remainder in other parts of New England. In regard to letters of credit, for which Alexander Duncan had become responsible, they are reported in a morning journal to be but $30,000. It was said the aggregate indebtedness of the firm would reach about $130,000, for which Alexander Duncan had deposited about $200,000.

A correspondent writing from Paris says: Not a half hour passes that I do not hear of cases of distress arising from this failure. Probably the majority of losers are persons to whom the event will be a real hardship, as they have no reserve fund upon which to rely. A widow who came to Europe a few months ago to reside here and educate her children, deposited all her money with Duncan, Sherman & Co., and took their letters of credit. She has not ten dollars in her possession, and there are rent and school bills due. Her excitement and alarm are so great that her friends apprehend insanity. There are many teachers, students, and others in the same condition, and they are not only in Paris, but all over the continent. At least four Americans who heard of the failure before the news reached the Rothschild agency secured their money, and have retired from Paris to avoid trouble. One of the four was visited by the cashier of the agency, who demanded the return of the money, which was refused. A policeman subsequently escorted him to the American embassy, where the cashier was told he could not make the arrest. "He can only seize his baggage, and I advise you not to do that." The cashier concluded he would wait, apologized and departed.

Western Union Telegraph.

Two meetings of the Executive Committee of the Western Union Telegraph Company were held yesterday, when it is believed were considered negotiations for consolidation with the Atlantic & Pacific Company. President Orton says: I am not prepared just now to make any statement in regard to the meeting, and the Vice President says he don't think it right that the doings of this corporation in all its details be revealed without permission of the President.

President Orton, in a published letter this afternoon, says: "The Western Union Company can use to advantage, and may absolutely require within the next twelve months, ten thousand miles of additional wires. If these additional facilities can be acquired of the companies now using them in competition with us cheaper than we can erect them, clearly it would be for our interest to buy out such companies rather than to erect new wires. But we have made no proposition for the purchase of any competing lines, and no proposition has been made to us that would be for the interest of the Western Union to accept."

The *Evening Post* says the Executive Committee of the Western Union Telegraph yesterday appointed a committee to confer with representatives of the Atlantic and Pacific Telegraph Company in regard to the consolidation of interests.

A Scandal Libel Suit

Notice of the trial of a $100,000 libel suit of T. Tilton against the Brooklyn *Eagle* and Thos. Kinsella was entered this afternoon in the Brooklyn City Court for the September term.

Alleged Forgers Arrested.

The *Evening Post* furnishes the following: Four men have been arrested for participating in the forgeries of the California & Oregon Railroad bonds. Most of the money advanced on the bonds has been recovered.

Sale of the Northern Pacific Railroad.

The Northern Pacific Railroad was sold to-day by the Purchasing Committee of the bond holders for the nominal sum of $100,000. There was no competition.

SEASONABLE SPORTS.

The Races at Saratoga.

SARATOGA, August 12.—The first race today was for the Kenner stakes for three year olds; $100 entrance fee, half forfeit, with $1,500 added; two miles. Of sixteen entries six started. The track was fair. Ozark led for a mile and three-quarters, with Milner second and Warwick third. Ozark then fell back to the third pace, but rallying, passed Warwick and made a dead heat with Milner; St. Martin fourth, Willie Benker fifth, and Chesapeake sixth. Time 3:43¼

It was decided to divide the stakes between Ozark and Milner.

The second race was for a purse of $600 for all ages, one and a half miles. Madge, Aaron, Pennington, Dublin, Scratch and Grimstead started. Grimstead won by a length, Pennington second, Dublin third. Time 2:40.

The third and last race was a selling race for all ages, for a purse of $500, one mile and a quarter. There were nine starters. The race was won by Brigand by three lengths. Survivor second, Caroline third. Time 2:24½.

The Rochester Races.

ROCHESTER, August 12.—The unfinished 2:31 race of yesterday was won by Lady Turpin in 2:24¾, Idol second, Nellie Walton third.

The race for the 2:22 class was won by Lucille Golddust in three straight heats, Sensation second, Bella third, Seafoam fourth. Time 2:19¼, 2:20¼ and 2:21¾.

The 2:27 class race was postponed until to-morrow, after trotting four heats. Rarus won the first and third, Mollie Morris the second, and Eva the fourth. Time 2:20¾, 2:24½, 2:26 and 2:22½.

Base Ball.

LOUISVILLE, August 12.—Cincinnatis, 4; Olympics, 1.

HARTFORD, August 12.—Hartfords, 1; Mutuals, 1. The game was interrupted by rain. On the last half of the ninth inning, the Hartfords at the bat, with two men out, the game was declared a draw.

ST. LOUIS, August 12.—Athletics, 8; Browns 1.

COLUMBUS, O., August 12.—Bostons, 19; Buckeye, 1.

The Quarrel Over Indian Affairs.

PHILADELPHIA, August 12.—The *Evening Telegraph* of to-day publishes a letter from Wm. Welsh to President Grant, on what he terms the libellous attack of Secretary Delano on Mr. Walker, Clerk to the Board of Indian Commissioners. He says he believes said libel was concocted and published by Cowan, Assistant Secretary of the Interior, with the cordial approval of Delano. Welsh charges that these attacks were made on Walker because he exposed frauds which it was the duty of the Interior Department to check. Welsh then charges Delano with making wilfully a false report to the President in reference to the amount of stock subscribed to the Northern Pacific Railroad, and threatens to publish further statements of still more objectionable acts, and concludes: "Your protection of General Walker, when he was convicted of misfeasance or malfeasance as Commissioner of Indian Affairs, seems wholly [illegible] unaccountable, except on the hypothesis that love in you is blind."

FROM WASHINGTON.

Snowing on Pike's Peak Yesterday.

WASHINGTON, August 12, 1875.

The Indian Investigation.

The following dispatch was received at the Indian Bureau this morning, from Rev. S. D. Hinman, dated Cheyenne River Agency, August 11:

"The Indians at Cheyenne and Standing Rock consent to go to Red Cloud for a grand council. We have directed the agent to furnish them rations for the journey, and also to attend in person, if possible. There will probably be three thousand Indians present at the council, besides those belonging to the Red Cloud and Spotted Tail agencies. It is important that presents should be sent for them, and horses ordered to be purchased. The failure to remove the whites from the Black Hills is still causing us trouble."

Snowing on Pike's Peak.

The Signal Office reports that it was snowing on Pike's Peak this afternoon, with the temperature at thirty-three degrees.

THE SCIENCE CONVENTION.

Second Day's Proceedings—Interesting Papers Read.

DETROIT, Mich., August 12.—The session of the American Association for the Advancement of Science is proving a complete success in everything but members, only one hundred and twenty-three members having as yet responded to their names at roll call. The citizens of this beautiful city are doing all in their power to make this meeting a pleasant one to all concerned, and there is no doubt but that their efforts will be successful. At the general session, this morning, invitations to visit various points of interest were received and properly acted upon, after which Prof. Morse's resignation as a member of the Standing Committee was accepted, and Prof. F. W. Clarke, of Cincinnati, was elected in his place by ballot.

The general meeting then adjourned, the sections reassembling at once at their respective rooms. In section "A," devoted to mathematics and physics, the following were chosen members of the General Nominating Committee: Geo. W. Hough, of Albany, N. Y.; J. Stockwell, Cleveland; F. Eddy, Cincinnati; and O. D. Bolton, Columbia College, New York.

The following papers were read before the section: "Descriptive Geometry," by Edward Warren; "The Solar Atmosphere," S. P. Langley; "Problems in Watson's Coordinates," by Thomas Hill; "On the Distribution of the Asteroids," by Daniel Kirkwood; "On Some Inequalities of a Long Period in the Moon's Motion," by Jno. N. Stockwell.

In the sub-section of Chemistry, papers were read as follows: "On the Omission of Dynamical Quantities from Chemical Formulae," by H. F. Walling; "Chemistry of Three Dimensions," by F. W. Clarke; "On Certain New Tungsten Compounds," by Albert F. Leeds; "An Improvement of Bunsen's Method for Specific Gravities of Gases," by T. C. Mendenhall; "On Carbon Determinations in Iron and Steel," by John W. Langley; "Comparative Determinations of the Solubilities of Alkaloids in Crystaline, Amorphous and Nascent Conditions," by Albert B. Prescott, and a "Note on Colorado Tellurium," by F. W. Clark.

A sub-section of Microscopic was organized, and the officers will be elected to-morrow.

Section "B," devoted to Geology and Biology, seemed to appeal strongly to the public taste, and the Recorder's Court room, in which the sessions were held, was thronged throughout the sessions. Papers were read as follows: "Are Insects any Material Aid to Plants in Fertilization?" by Thomas Mehan; "Distribution of the Batrachia and Reptilia of North America," by E. D. Cope; "Locusts as Food for Man," by Charles V. Riley; "Fac-similes from Nature of Ancient Rock Sculptures in Ohio," with verbal explanations, by Chas. Whittelsy; "Notice of Some Prehistoric Remains from Michigan and Illinois," by A. Winchell; "Recent Mound Explorations at Davenport, Iowa," by R. J. Farquharson; "Physical Geology of the Trap Formation of Lake Superior," plans and verbal explanations, by Charles Whittelsy; "On the Geology of the Southern Counties of New York, and Particularly of the Catskill Mountain Region," by James Hall; "Rectification of the Geological Map of Michigan," by Alexander Winchell; "New Specimens of Fossils from Canada," by J. W. Dawson; "On Some New and Remarkable Coal Plants from the Lower Measures of Ohio, and their Typical Relations," by E. B. Andrews; "Existence of Glacial Action Upon the Summit of Mt. Washington, N. H.," by Charles Hitchcock; "Indian Mounds and Shell Heaps near Pensacola, Fla.," by George M. Sternberg; "Notes on Aboriginal Money of California," by Lorenza Gates.

This evening the members of the Association, after listening to an address by Dr. Jno. L. Tronet, of Philadelphia, became the guests of E. A. Brush, one of the oldest residents and wealthiest citizens of this city. The weather is delightful, and everything conspires to make this an exceptionally pleasant meeting.

POLITICS IN OREGON.

Republican and Independent State Conventions.

SAN FRANCISCO, August 12.—The platform of the Oregon Independent State Convention favors resumption of specie payments, repeal of the act doubling the President's salary, pledges the nominee to river and harbor improvements and locks at the cascades, and legislative control of wares and freight, and reimbursement to Oregon of the Modoc war expenses by the General Government.

The Republican State Convention met. The platform declares in favor of a union of sovereignty of the General Government, approves the national administration, favors the policy of arbitration between Governments, resumption of specie payments, revision of the patent laws, legislative control of corporations, the Government's sanction of internal improvement, and opposes the third term movement.

For Congress Henry Warner, formerly Receiver of the United States Land Office at Oregon City, was nominated.

Whitley, the nominee for Congress of the Oregon Independent Convention, declines to run, his acceptance being conditional, on endorsement by the Republican Convention. The Independents may make another nomination.

YELLOW FEVER.

Thirty Cases in Pascoguala, Miss.—Seven Deaths—The Disease of a Malignant Type.

PASCOGUALA, MISS., August 12.—The yellow fever broke out here on Sunday, August 8th. It is not known how it originated. It is supposed to have been brought from Havana. There are now thirty cases under treatment. The disease is of the most malignant type. There are already seven deaths, including Dr. Bradford, a leading physician.

A Notorious Convict.

JEFFERSONVILLE, IND., August 12.—Kennedy, the notorious convict who shot and killed the guard, George Chamberlain, at an attempted outbreak at the State prison south last Summer, was tried before Judge Anthony, in the Criminal Court at Charleston, Ind., to-day. The jury agreed on a verdict in fifteen minutes, as follows: "We, the jury, find the defendant, Kennedy, guilty of murder in the first degree." When the verdict was read Kennedy showed no outward signs of emotion, and seemed indifferent to his fate. A motion for a new trial is pending, and will be argued to-morrow.

The Crop Prospects in Nebraska.

OMAHA, August 12.—The *Herald's* specials from nineteen of the heaviest grain-growing counties of this State give most encouraging reports. The grasshoppers have entirely disappeared in most places. At Chapmann's they settled down yesterday and night before last in vast numbers, and have hurt the corn badly. The damage to the corn in Dawson county will be less than one-tenth. The small grain throughout the State is nearly all harvested and in good condition. Many farmers are working day and night to secure the crops. The weather is very pleasant, the thermometer not being over seventy-six at the hottest.

A Flood in Mill River, Mass.

SPRINGFIELD, MASS, August 12.—A flood in Mill river last night and the overflowing of reservoirs and dams caused great excitement in the valley, and the inhabitants abandoned their houses and fled to the hills. Some mills, bridges and roads were slightly damaged, but no lives were lost. The Searsville reservoir dam on the west branch of Mill river was swept away.

The damage to bridges has cut off railroad communication between Albany and Boston. Repairs cannot be made till the waters subside.

Narrow Escape of Tourists.

MONTREAL, August 12.—The steamer Algerian struck on Split Rock Rapids yesterday. The passengers, numbering 300, mostly American tourists, were rescued and returned to Montreal by the train.

Death of the Oldest Philadelphia Lawyer.

PHILADELPHIA, August 12. — Horace Binney, the oldest member of the Philadelphia bar, died to-day, aged ninety-seven.

Marine News.

LIVERPOOL, August 12.—The steamship Moravian, which was to have sailed to-day for Quebec and Montreal, broke her shaft, and has been docked for repairs.

HERZEGOVINA.

The Situation Becoming Grave.

CONSTANTINOPLE, August 12.—The *Turquic* newspaper says the situation in Herzegovina is becoming grave. The insurgents have attacked Tregine, burning and pillaging in all directions. Three thousand men, chiefly Dalmatians and Montenegrins, are endeavoring to destroy communication between Moster and Hevecine. Fifteen hundred Dalmatians and Herzegovinians are marching on Bochtocha. The Montenegrins and Dalmatians are also aiding the insurgents with money and provisions. The presence of the Servian Corps on the frontier also seems to furnish the insurgents encouragement.

The Turks Defeated.

LONDON, August 12.—The Turks were defeated by Herzegovinians in an obstinate fight at Biledia.

The Question of Intercession.

VIENNA, August 12.—The *Fremdenblatt* reports that Count Andrassy has conferred with the Russian and German ambassadors, and they have agreed to support Austria in any recommendations she might make to Turkey looking to the pacification of Herzegovina.

Another Failure.

LONDON, August 13—5:30 A. M.—The Stockton Rail Mill Co. has suspended in consequence of the failure of Shaw & Thompson, iron merchants. The liabilities of the company are estimated at $500,000.

GERMANY.

Old Catholic Conference.

BONN, August 12.—The Old Catholic Conference, called by Dollinger, was formally opened to-day. The session will last three days.

In attendance there are about thirty English and American clergymen, and several Aachinandrites and Bishops of the Eastern Church. Among the American divines are Rev. Drs. Langdon, Devin, Potter and Parry. Dr. Dollinger opened the proceedings with an address, which lasted an hour. He treated of the relation of the dogmatic controversy between the Latin and Greek Churches, and the whole course of ecclesiastical history.

At the conclusion of his address the Conference entered upon the business for which it had met, which was the consideration of Dr. Dlolinger's plan of confederation and intercommunion among separated churches. This union is to be based on the mutual recognition of the primitive truth which may enable each church to admit members of other communions to its privileges in respect of divine worship and Christian sacraments. At the same time an actual fusion or sacrifice of national or traditional peculiarities of a former church constitution is not contemplated. An ambiguous expression of the substance of Christian doctrine and practice as taught by the Bible and fathers of the ancient church is sought as the real band of union. The discussion of this subject occupied the remainder of to-day's sitting.

SPAIN.

A Draft Ordered.

MADRID, August 12.—A decree has been promulgated ordering a levee of 100,000 men for military service. The levy includes youths who shall be nineteen by the 31st of December next.

Redeeming the Floating Debt.

Another decree directs the Minister of Finance to redeem the floating debt and issue consolidated interior scrip for £60,000,000 in order to guarantee future loans and advances of the Bank of Spain and Mortgage Bank.

Bombardment of Lequeito.

The man-of-war Victoria is bombarding Lequeito, on the Biscayan coast.

The Siege of Seo de Urgel.

MADRID, August 12.—General Martinez Campos, in a dispatch dated Seo de Urgel, to-day, announces that the troops under his command, after desperate fighting, entered the Olsana tower. He lost one hundred killed. The Carlist loss was still heavier, and many of the garrison were taken prisoners. The explosion of the magazine in the citadel made a large breach in the walls.

LONDON, August 13—5:30 A. M.—A dispatch to the *Daily News* reports that the Alfonsists at Seo De Urgel are mounting a battery in Olsane, which they carried by assault, and it will be impossible for the Carlists to hold the citadel.

WEST INDIES.

More Spanish Cruelty.

KEY WEST, FLA., August 12.—A letter from Havana states that the passenger who was forcibly taken last month from the British mail steamer Eider, at Porto Rico, by the Spanish authorities, proved to be a Colonel in the Spanish service. He was brought ashore and soon afterwards shot. All foreign consuls protested against the act. No news of this arrest and execution was allowed by the Censorship in Havana to pass over the wires.

Probabilities for To-Day.

For the Middle States, lower lake region and South Atlantic States, clearing weather and rising temperature, with southeast to southwest winds, stationary or rising barometer, and possibly local rains in Northern New York and near Lake Ontario.

The Rivers.

The Ohio river will continue to fall at stations above Paducah, but will remain above the danger line, and rise slightly at Paducah. The Mississippi will fall slowly at Cairo and St. Louis, and rise slowly at Memphis, Vicksburg and Helena.

THE MISSISSIPPI FLOOD.

A Large Crevasse Below Memphis—3,000 Acres of Cotton and Corn Destroyed.

MEMPHIS, August 12.—During the twenty-four hours ending at six o'clock this evening the river has risen only one-third of an inch, and only shows thirty-three feet ten inches flush on the gauge, which is a trifle above the spring rise and two inches below the danger line. Additional news from below in reference to the crevasse at Burke's place, in the lower end of Coahoma county, Miss'ssippi, states that there is a gap of twelve miles between the levee districts of Coahoma and Bolivia counties, and at the lowest point, which is Burke's, a private levee had been constructed, which broke last Friday night, since when the water has been pouring through the crevasse, and thence into Hush, Puckany and Sun Flower. About 3,000 acres of cotton and corn have already been destroyed in that vicinity.

At Chicot City they report the railroad inundated at the fourth and eighth mile posts, and most of the lands between there and Red Fork, on the Ark[illegible] [illegible]ansas river, are [illegible]ged. Planters are reticent in regard to their losses, and steamboatmen are not inclined to array the planters against them by giving information concerning the damage, except in general terms.

Sunday School Convention.

A Wet Day—Singing by the Tennesseeans—Methodist Ideas of the Presbyterian, John Knox—An Editor Tells How to Bring Up Children—An Address on "Our Needs."

FAIR POINT, N. Y., August 12.—Rain has fallen during a good portion of the day. Rev. J. G. Achinson, of Detroit, led the singing during the general exercises, the Tennesseeans giving several songs. The President and party will be brought from Jamestown to Fair Point on the steam yacht Josie Bell on Saturday afternoon.

This morning Rev. Jesse Lyman Hurlbut, of Plainfield, N. J., gave Methodist ideas of the Presbyterian, John Knox, in a sketch of his life and career, which was very well received by the audience.

At two o'clock Mr. M. C. Hazzard, editor of the *National Sunday School Teacher*, at Chicago, spoke on "The Child in the Midst." The child was treated as wheat. He was first cradled and then threshed before he became the flour of the family. A child rightly formed was better than a child reformed. It was important to have right formers. The first thing to do was to make education compulsory. The Church should accept the Sunday school as a part of itself, and care for the babes from the pulpit. A Scotch proverb said an ounce of mother was worth more than a pound of preaching. The Church, the family and State should point the child to God as its father.

A heavy rain fell during the delivery of this address, yet the audience was held to the close.

Rev. Dr. Knox concluded his address on "Christian Unity," and asserted that a completeness of organization was practical.

A meeting of graduates of last year's session of the Assembly was held, and there was a platform meeting, addressed by Rev. Dr. Niles, on "Our Needs." The first need was power from on high. We should keep our minds fixed on Him, who is the Great Teacher.

Mr. Worden, of Steubenville, Ohio, offered a resolution approving the Woman's National Christian Temperance Union's plan for juvenile temperance organizations, with monthly meetings, and it was unanimously adopted.

Rev. George A. Peltz, of New Jersey, then spoke on "Teachers' Meetings." There should be careful, thorough preparation, with a free use of all helps. We should get the best thoughts from all sources. Then we should do something to promote spiritual power.

Rev. Dr. Deems, of New York, was introduced to the audience, and made a brief address.

A HORRIBLE CRIME.

A Sailor's Confession—Two Women Outraged and Murdered at Sea Two Years Ago.

HALIFAX, August 12.—A report is in circulation of a horrible crime committed two years ago, which only now comes to light from the confession of a sailor named Greenwood. The schooner May E. Jones sailed from Clyde River, Shelburne county, for Boston, and two sisters, named Sutherland, were passengers. Shortly after sailing the two women were brutally outraged by the captain and crew, except the man who now tells the story. They were then killed and the bodies thrown overboard. The crew afterwards landed in their boat on the coast and reported that the vessel met heavy weather, was thrown on her beam ends, and the women drowned in the cabin, but the vessel subsequently drifted into Barrington Bay, when the deck load was still on, and there was no appearance of her having been on her beam ends, and no bodies in the cabin. The captain's name was Swain, and is now bound to New Brunswick port, where he will be arrested on his arrival. One of the crew was lately arrested at Shelburne, but the magistrate considered the evidence insufficient to warrant a commital. There is much excitement in the country about the matter. Greenwood's only excuse for not before telling the truth is the sailors compelled him to take an oath that he would never divulge the crime.

A Murderer Lynched.

NASHVILLE, August 12.—The *Banner's* special from Murfreesboro to-night says Josie Woodson, the alleged murderer of Mr. Jarrett, was taken out of jail to-night by a party of mounted, undisguised men. They numbered nearly one hundred. They went out on the Salem road, and it is supposed Woodson was hung on the fatal spot where two others were hung twenty years ago. Woodson was arrested for the murder of Mrs. Jarrett on strong circumstantial evidence on the 12th of May. He was brought to Nashville and imprisoned, as there were strong threats of lynching him at Murfreesboro. He was taken to Murfreesboro this morning for trial.

Liquor Establishments Seized.

ST. LOUIS, August 12.—The extensive liquor establishment of Sadler & Co., at St. Joseph, M., was seized yesterday by the United States Revenue officials, and it is said that other seizures are to follow.

W. T. Zubro, of Sedalia, Missouri, was arrested yesterday, for operating a distillery contrary to law.

STATE TEACHERS' ASSOCIATION.

Twenty-second Annual Meeting—Sad Accident at Allentown—Interesting Addresses and a Warm Discussion.

Correspondence of the Pittsburgh Gazette.

WILKESBARRE, PA., Aug. 11, 1875.

Your correspondent boarded the Atlantic Express at the Union Depot on Monday, and took a flying trip through tunnels and over bridges and up and down the mountains to Harrisburg. After resting our weary limbs for a few hours at the United States House we again started for Allentown, through the beautiful Lebanon valley, taking in Reading and several other small fry towns, and by the way, Reading has the finest passenger depot between Pittsburgh and New York City. Arriving at Allentown we witnessed a very sad accident. A Sabbath school picnic party was just starting to Lau[illegible] Hill to spend the day, and as the train moved off, a young man aged sixteen, in passing from one car to another fell between the cars and was instantly killed. His name was Rudolph. At Allentown we were shifted to the Lehigh Valley road, and continued our trip by way of Mauch Chunk and White Haven to Wilkesbarre. The scenery from Allentown to Wilkesbarre is very fine. Most of the road is composed of curves, not unlike the Horse Shoe bend, on the Pennsylvania Central. The grade is very heavy all the way from Mauch Chunk to the top of the mountain is reached near Wilkesbarre, which is located in the beautiful Wyoming Valley, just 390 feet below. The train is now only three miles from the town and yet it must wind down the mountain side for a distance of eighteen miles on a grade varying from 75 to 105 feet to the mile before the city of Wilkesbarre is reached. The country along this Lehigh Valley Railroad, from the beauty of the scenery, has been very aptly designated, by eminent tourists, the Switzerland of America. Well we have arrived and are packed into a crowded hack with our little carpet sacks and hurried off to the Wyoming Valley "House" which we find jammed with school marms, and Professors. The Pennsylvania Teachers' Association is convening here this week. This is the first day of the meeting, and as Wilkesbarre is a popular Summer resort every hotel is packed. The proceedings to-day have been very interesting and instructive. The following programme was gone through with: Address of welcome by H. C. Palmer, Wilkesbarre. Reply by Prof. H. B. Eastburn. Enrollment of members.

Afternoon session—President W. Woodruff, of Chester county, delivered an inaugural address in which he recommended that the resolution adopted at Lancaster meeting, relative to religious instruction in the public schools, be rescinded. This address was listened to with great interest, and at its close a very lively discussion ensued on the rescinding of resolution, in which Messrs. Allen, Sn[illegible], Richardson, Wickersham and others participated. The discussion was finally postponed till to-morrow afternoon, when it will be resumed. At the evening session Prof. Fetter, of Philadelphia, addressed the meeting on "The Power of Thought," and Miss Sanford, of Swarthmore College, on "Morals and Manners."

FELI[illegible]

Burglaries in New Brighton.

The *Beaver Valley News* says the house of Mr. D. Critchlow (one of its proprietors) New Brighton, was entered Tuesday night and a watch and about $47 in money stolen. The burglar placed a ladder against an upper window in front of the house, and entered in that way. The vest which had contained the watch and money was found in the yard next morning. Judge Chamberlain lost a pair of valuable gold spectacles the same night. The residence of Rev. C. N. Spalding was also entered and his pocket rifled of $150 in cash and a $60 check, showing that the fellows were "on the wing." The theory seems to be that they operated from the windows, and hauled the clothing containing the money by a hook to the window and [illegible] the pocket book [illegible] rifled.

—The loss caused by storms in New Jersey yesterday is heavy. In Orange county the damage is estimated at $100,000, and in Passaic county $50,000.

—Fitzwilliam Lonsdale, one of the proprietors of the St. Charles Hotel in New Orleans, died at Mississippi City, of consumption, on Thursday.

—The election for delegates to the North Carolina Constitutional Convention foots up sixty Democrats, two Independents, and fifty-eight Republicans.

—Mr. Devlin, M. P., has written a letter of apology to Judge Mackay, stating his willingness to answer any questions put to him, and he has been released from jail in Modtreal.

—Part of the Indians in the neighborhood of Corrinne, Utah, left on Thursday for their reservations. The balance promised to leave to-day. No further trouble is anticipated.

—The Supreme Court of Montana has granted W. H. Stears, convicted of the murder of Ward, a new trial, on the ground that the verdict of the jury did not define the degree of murder committed.

—The freight agents of Chicago have resolved on a further reduction of freight rates from Chicago to Kansas City, as follows: First class, thirty-five cents; second and third classes, thirty cents; and fourth class, twenty-five cente.

—A New Orleans dispatch says the Louisville *Courier-Journal's* account of the loss of the bark Florida is correct enough as to that vessel, but has no bearing on the loss of the schooner Florida. Both vessels sailed from New Orleans.

—Barney Cone was arrested in Chicago on Thursday on a charge of killing a man named Russell in St. Louis some two years ago, having, it is alleged, chopped off Russell's head with a spade. He is held to await the arrival of St. Louis officers.

—The Caledonia Club of Chicago held its twelfth annual picnic on Thursday. An immense concourse of people visited the grounds, many being present from other cities, especially from Fort Wayne. National games were played, as is the custom of the Scottish people in the old country.

—A dispatch from Independence, Kansas, says Indian Commissioners Neal and Van Voorhis, of Ohio, and Haws, of Illinois, arrived there on Thursday, *en route* to the Osage Agency to investigate the charges against Gibson, Agent of the Osage Indians, against whom grave allegations are made.

—The office of the Central Pacific Railroad Company in San Francisco was surrounded by police on Thursday, who searched for Woodruff, *alias* Miller. He was found and arrested on a warrant, and confined in the city prison. Bail was fixed at $25,000. The prisoner declines to converse with reporters.

—Nothing has been heard of Hobkirk, the missing cashier of the Corn Exchange Bank of Waupum, Wis., and no doubt is now felt that he has absconded, taking all the convertible assets of the bank. The amount due depositors is $85,000, and to others $15,000. The depositors are mostly all farmers, living in Dodge county. Hobkirk is believed to have lost heavily in wheat speculations.

—J. Manley Snyder, cashier of the Chillicothe (Ohio) National Bank, has been discovered to be a defaulter, but the amount of the defalcation is not made public. Snyder left Chillicothe three weeks ago to go to Cincinnati, but has since been heard of in Wallingford, Vt., where he has relatives. His mysterious conduct induced an investigation, which showed that for eight years he has been using the bank's balances in New York for speculative purposes.

INDUSTRIAL NOTES.

THE new keg factory at Wheeling, with its newly invented crozier, has got to work.

THE Wheatland furnaces will go out of blast the latter part of the month, as the supply of stock will become exhausted by that time.

F. ALDEN'S new triple cylinder steam engine, built by Messrs. Robinson, Rea & Co., is now ready for steam and it will be tested immediately.

THE Pittsburgh Manufacturing Company are running their usual number of hands on machinery of various kinds, including nail machines.

MESSRS. MITCHELL, STEVENSON & CO. have just completed a four-story warehouse fronting about 200 feet on Ætna, corner of Fourteenth street.

THE iron mills of W. D. Wood & Co., located at McKeesport, were damaged to the extent of from $5,000 to $10,000 by the flood in the Monongahela last week.

PAINTER & SON are about to put into their mill, on the South Side, a new 10 inch billet mill, and 8 inch hoop mill, and to run these, a 22 inch cylinder engine.

THE shipments of ore from the Lake Superior iron district for the season up to August 4 aggregate 396,062 tons, against 417,860 for the corresponding period last year.

PORTER, BELL & CO. have shipped the first locomotive to the Hot Springs Narrow Gauge Railroad, Arkansas. This engine has 11x16 cylinders, 44 inch drivers and two-wheel pony truck.

THE Lochiel Rolling Mill Company, Harrisburg, are running their rail mill to full capacity and working three hundred men. The blast furnace is idle, owing to a strike of their hands June 1st.

MESSRS. CARNEGIE BRO.'S are running the puddling department and part of the finishing department of their mill double turn, the other part single. They have put in seven new puddling furnaces during this summer and made some other important improvements.

GRAFF, BENNETT & CO. and Spang, Chalfant & Co. have struck the first blow toward bringing the gas of the big well in Butler county to their mills. Work on the trenches for the pipe was commenced on Monday, and the contract stipulates that the pipe must be laid within twenty-five days. The trench is to be three feet deep and the pipe six inches in diameter and about 17 miles in length.—*American Manufacturer.*

A MANUFACTURING company is about to be formed, for operations in Greene county, near Rice's Landing. Infact the manufactory has been running for some time, I. H. Allfree & Co., proprietors, and has in successful operation some machinery of a very useful and important character. The proprietors have the right to use some three or four late patents, improved by their own invention. One is a stone saw, for sawing out stone, as a wood saw saws out wood; another patent wood saw and a patent for a threshing machine. The Messrs. Allfree have thrown their interest in this machinery into a stock company of twenty shares with a capital stock of $25,000, with the privilege of raising it to $50,000—a number of Pittsburgh men being in the company—with an office in that city. Mr. I. H. Allfree informs us that they have already orders on hand for work to be done to the amount of from $50,000 to $75,000.—*Waynesburg Repub.*

STATE BREVITIES.

SOME 400 feet of water pipe was uncovered at the Phœnixville Iron Works before the leaks were discovered and stopped.

THE State Council of Pennsylvania, Sovereigns of Industry, are in session at Harrisburg. There are about forty-five Councils represented.

LEROY L. LOWRY, of Erie, formerly a prominent oil operator in the oil region and on the Allegheny river, died at his residence in Erie, on Monday evening last.

THE remains of the boy Reed, who was drowned in Stoneycreek, Monday of last week, were found in the Conemaugh river, lodged at the North side of the dam, at [illegible]g Hollow.

ABOUT three weeks ago, the wife of Charles Rutland, of Southwest, Warren County, died with typhoid fever, and on Tuesday last her little girl was scalded to death by falling into a tub of hot water.

A barn of Jacob Shaffner, about a mile and a half from Butler, was struck by lightning last Friday, during a storm, and burned to the ground with all its contents.

The loss is about $3,000, against which there is no insurance.

A WELL-DRESSED gentleman on the west bound express train attempted to commit suicide Wednesday afternoon just before the train reached Meadville. He was observed to place a revolver to his head, but it was quickly taken from him, in time to prevent the rash act. He was on his way from Germany to St. Louis. He was found to be insane, and was taken charge of and placed in the Charity Hospital at Meadville.

A POTTSTOWN family started off in a wagon on a blackberrying expedition. On arriving at the scene of operations, the horse was unhitched from the wagon, and ran off. After an hour's labor the animal was secured. Then the baskets were filled and suspended on the limb of a tree, whilst the party proceeded to a spring to quench their thirst. When they returned baskets and berries were gone—stolen—and the berry-pickers returned home, declaring that they didn't enjoy the trip a bit.

THE Butler *Citizen* says that a man in that town had a cow, diseased with a large and filthy cancer, which made it necessary that she be killed, so he gave her to a man living about a mile out of town to kill and bury, but the man, instead of burying the carcass, brought it to town and peddled it around from house to house. The hide of the cow, it is said, was found at a tanner's in town, and identified by parties who had often seen her when alive. If the animal could be put together again, the man who sold her should be compelled to eat her whole, without salt or pepper.

WE ARE DAILY RECEIVING
LARGE ADDITIONS
To our stock. The extraordinary demand for some of the lines of goods we have been selling at about half value has rendered it necessary for us to duplicate our orders for the goods.
Among the many good bargains we have been offering, nothing has been received with more satisfaction than the line of
Black All Wool Cashmeres
Particularly the 90c. $1 and $1.10 numbers. The quantity we have sold of these goods has been unprecedented at this season of the year, and can only be accounted for by the fact that we are offering extraordinary inducements in the price of the goods.
We would also invite the special attention of buyers to our line of
Black Alpacas and Mohairs
Of "our own" importation. We are offering bargains that we know are unequalled in this market. We respectfully solicit an examination of goods and price.
OUR ASSORTMENT OF
Dress Goods!
In low and medium prices, is one of the largest in either city, and at values that will suit buyers. We call special attention to our Plaid Debeges at 12½c, and our Plain and Twilled Debeges at 20c. We have also in stock a few cases of Seal Brown and Dark Slate Mohairs at 31c, well worth 50c.
We open this week over 1,000 pieces of Hamburg Embroideries, Edgings and Insertings at greatly reduced prices.

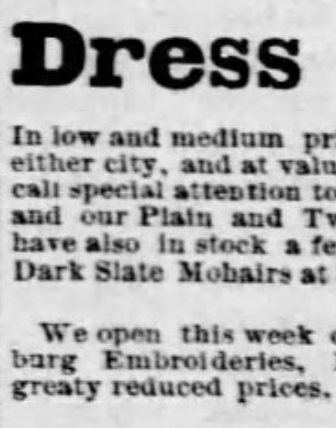
VERDICT
In Favor of Howe's Standard Scales.



We, the undersigned, comprising *all the wholesale Butchers* of Chicago, are using the IMPROVED HOWE STANDARD SCALES, and after using Fairbanks' and other Scales, do find that the improvements in the HOWE Scale render it the *best.*
We use a scale *severely*, and find the HOWE to be *the strongest.*
We weigh out each day over *thirty thousand dollars worth of meat,* to the retail markets, in various quantities, and require our *large scales to weigh small fractions of a pound.*
This merit we have *found* is *alone* possessed by the IMPROVED HOWE and is maintained after the most severe and longest tests, being attributable to the patent chilled iron balls between the platform and knife edges, on which all friction is received, thus preserving the fine edge of the pivots on which the correct and delicate action of a scale depends.
We also find the IMPROVED HOWE SCALES *the most economical,* not needing the frequent repairs that Fairbanks' and other scales do.

IT now is probable that the sale of the Northern Pacific Railroad will be made under favorable circumstances. The decree of sale has been modified, so that smaller portions of lands can be sold at one time.

THE report has been in circulation that ex-President Johnson had $350,000 insurance on his life. This proves to be an error. He has not, at any time, been so situated as to be able to pay $17,500 yearly for premiums on policies,—and thus did not have the large sum referred to on his life.

SOUTHERN PAPERS indicate that the Democracy South are becoming restive at the subordinate position they have been obliged to occupy so long. They propose to demand hereafter fuller recognition than has been accorded them, and will probably inaugurate their contest next Winter in the House.

THE report that certain Mormonized Indians in Utah have been induced to threaten the destruction of Gentiles should lead the Government to give those Indians a very clear intimation of the danger they will incur if they resort to hostilities. We do not believe either the President, or the people generally are prepared to have another Mountain Meadow massacre under Mormon influences.

WHILE Governor Beveridge, of Illinois, has tardily arranged to offer a reward for the arrest of the parties in Williamson county who have been committing murders, there has been a sudden outburst of crime in Iowa and Missouri. It is marvelous, the fierce vindictiveness of these family vendettas. They should be suppressed in the most vigorous manner, as intolerable in civilized communities.

THE English Parliament has just dissolved, in obedience to an old-established custom, not to hold after "Grouse day," the 12th of August. The town season then ends, and grouse shooting in the country begins. It has not been a remarkable session, as regards important legislation, the Plimsoll bill occasioning more stir than any purely Government measure. Mr. Disraeli is believed to have lost strength during the session, in that he has had no striking measures to present. His policy has evidently been to quietly avoid excitement, but in this he failed. It has been a trifling, unimportant session, of little credit to either party, if we except, probably, the shipping bill, which passed since Plimsoll's demonstration.

HON. HORACE BINNEY, probably the oldest lawyer in the country, certainly the oldest in Philadelphia, died in that city yesterday, aged ninety-seven years. Through a long and active life Mr. Binney had identified himself with the interests of Philadelphia. For many years he was a director in the first bank of the United States, and was one of the trustees in the winding up of that institution. He took a prominent part in national politics during the exciting times of Jackson's term, when he was elected to Congress in opposition to the administration, and he immediately obtained a commanding influence in that body. He retired from political life many years since, and had nearly attained his centennial birthday when death put an end to his useful career.

ARE not the contractionist journals making just a little more capital out of Senator Morton's speech than there is in it? It seems to us so. In announcing that the law of last Winter provides for specie resumption in 1879, he merely stated a fact, well known to all; and in explaining how the law would serve to bring about this consummation, he merely acted the part of a legislator familiar with the inside history of a given law. But we never understood Senator Morton to be an inflationist, in the sense of his desiring to issue an unlimited amount of irredeemable currency. At the time that the supply of currency was palpably below the demands of business, he advocated that it should be made to equal those demands. Now he knows that this need does not exist, and so is quiet on that point. But all the while he favored ultimately reaching specie payments. He is not inconsistent, as has been represented.

THE strike at Fall River, Massachusetts, whereby 15,000 laboring people have thrown themselves out of employment, is represented by the press and intelligent persons not involved, as a most unfortunate and ill-advised proceeding on the part of the working classes. It is stated that the rate of wages was not reduced till an absolute loss was suffered in the manufacture of cotton goods. When the reduction was proposed the companies made a reduction in rents, and private house owners did the same thing. In the face of all this, the strike was precipitated. There was certainly a spirit of fairness in the mill owners, and a spirit of uncompromising hostility among the men. It is unfortunate when men are thus misled. The sooner the laboring people realize there is a unity of interest between them and employers the better. We do not for a moment believe that employers should oppress, but in seasons of depression there should be a mutual endeavor to make the best of bad times.

THERE is often an unaccountable strangeness attending deeds of crime that inspires the inquiry whether the guilty persons are in their right senses. The confession of Halleck, the cash room clerk, who stole the $47,000 package of money, and gave it to his confederate, is a case in point. His confession is to the effect that he was persuaded to commit the crime by Ottman, but without any distinct promise as to the share he should have. He knew Ottman but slightly, yet he accepted his persuasions, stole the money, gave it to him, and trusted his generosity for proper compensation. He received but $600 for his part, and was really thrown aside by Ottman when once he had committed the crime. Here we have a person, whose every reasonable motive lay in the direction of honesty. He forms a casual acquaintance with a person who soon proposes theft,—a fact which in itself should have sundered that acquaintance very speedily. In place of this he allows himself to be infatuated with the project proposed, and is drawn on till he becomes the principal in a crime, the fruits of which go to another. There is either something strangely fascinating in certain forms of crime, or certain persons have very great power over the wills of others. The confession of Halleck tallies so closely with the observations of the detectives that it is accepted as true. And if so, it is exceedingly strange.

THE St. Louis *Globe-Democrat* thinks it very easy to quarrel with our National Banking system, and that the Government had as well issue the notes as permit the banks to do it. Also that the Republican party cannot go before the country as the champion of the National Banking system. We do not profess to be champions of the National Banks, but really we think these objections far fetched. The monopoly feature of that system was remedied by last Winter's legislation. This permits any combination of persons to deposit United States bonds, and take out circulating notes. So we have practically, free banking. Nor does the objections that the Government pays interest on the bonds deposited as security for circulation amount to anything. Those bonds were bought and are owned by the parties who purchased them. The fact that they are used as collaterals does not affect either the liability of the Government to pay interest on its bonds, or the right of the owners to receive interest. This is an ordinary business transaction. A man may deposit bank stock as collateral for a loan,—but this does not prevent his receiving his dividend on the stock. The Government taxes the banks a certain percentage on their circulation and business, and thus gets back a part of the interest paid. But the payment of interest on its own bonds is an absolute necessity.

INFLATION—SPECIE PAYMENTS.

The confident assurance with which several Democratic papers affirm that there is a close similarity between our financial teachings, and those of the Democratic platform of Ohio, induces us to give to the subject a leading article. In our view, the Democratic platform is so self-contradictory, stupid, and dishonest, that it deserves but little consideration. It contains, in one part, certain utterances in favor of specie payments, to be reached by promoting industry and business, which, if they were all it said, we would agree with in a moment. Long before the Ohio platform of this year was thought of we enunciated, time after time, these identical ideas. But the platform goes on to state *how* it would promote industry and business. It would destroy our National banking system; would compel the recall and cancellation of all National bank notes; would substitute for them greenbacks; would have State banks in place of National banks; and finally, would have the Government receive greenbacks for all dues, even including duties on imports. This is how it would promote industry and prosperity, and secure an ultimate return to specie payments. Was ever a more absurd or crazy scheme developed? The first movement in this scheme,—that of calling in, and cancelling national bank notes, and destroying the banks, would mean the calling in, by those banks, of all the loans they have out. Put these at $1,000,000,000. As there could be no affinity between these and the proposed State banks, the loans must be paid. Who does not know that to call in these loans would operate to crush every particle of life out of trade. The whole country would inevitably be plunged into bankruptcy. Greenbacks could not be used for these debts, as the Government would not give them away, and could not discount notes. Thus all the talk of specie payments under the Ohio platform plan is a mere sham. The whole affair is a fraud.

During the several months preceding the panic of 1873, we believed the country needed more currency to transact the business then in progress; but we do not for a moment think that with the business *now* doing, more currency is needed than we have. Lack of currency is not now the cause of business depression. If, however, business should again assume its old proportions, we presume more currency will be needed to transact it. But the law of Congress, looking to specie payments in 1879, provides for this very contingency. It is the only elastic currency law we have had. Under it, banks can organize, and, by depositing United States bonds with the United States Treasurer, can have circulating notes to any desired amount. When those notes are issued, the Secretary of the Treasury simply destroys eighty per cent. of the amount thus issued of greenbacks. On the contrary, banks can surrender their circulating notes, and take up their bonds. Thus the demands of trade now regulate the quantity of circulating notes we have—both of greenbacks and national bank notes.

One view further is, that the immediate hindrance to business activity is the continued disturbance of business confidence, and we attribute this disturbance to the agitation in favor of resumption through contraction of the currency. But this agitation does not come from the Republican party, as the Ohio platform impudently and falsely alleges, but does come from both Democrats and Republicans, in their individual capacity. Mainly, these agitators are Eastern capitalists. Their cause, however, has been greatly strengthened by the Ohio platform, as it so clearly provides for the breaking down of the credit of the Government, and ultimate repudiation, that no honest man can think of going to that extreme. Hence there is a reaction toward the contractionist view, occasioned by the foolish and dishonest policy of the Ohio platform.

We hold that no further legislation is necessary to ultimate resumption than such as will leave our industries and trade as little fettered as possible. Were the resumption feature of the law of last Winter repealed, it would answer quite perfectly, so far as financial legislation is needed. We will not resume through legislation, but as the result of the natural operation of laws of trade. These laws require, in order to specie resumption. That we be able to retain enough specie in the country to resume upon. 2. In order to this, we must export more of produce and manufactures that we import of manufactured and other articles. We owe Europe, and this debt bears interest in gold; and if our imports and exports exactly equal each other, we still will be compelled to send abroad enough gold yearly to drain our production, and so we delay indefinitely specie payments at home. 3. In order to export more and import less, we must produce more exportable articles and manufacture more of such articles as we import. 4. In order to do this, business activity must be restored. We have broad acres untilled; mines unworked; manufactories idle, and millions of willing hands unemployed. These are the sources of our wealth. We hold, that were the contraction agitation ended, the Ohio inflationary stopped, and the people left to quietly develop confidence, activity would be resumed, and specie resumption would come, without shock or trouble. These, in brief, are our views, and they are well sustained by facts.

It is idle to talk now of over-production. England wants more grain than we have raised for her. Our cotton supply is below the demand. Had we enough of these and other staple articles, we could stop the outflow of gold this year. As our mines produce, say $75,000,000 of gold yearly, we would gather up that much. Our system of duties would cause most of this to flow into the Government vaults. The revival of business would increase the revenues of the Government, and thus enable it to accumulate and hold gold. Such would be the natural operations of the law of trade, if left untrammeled by artificial laws, and foolish agitation. The great point to be aimed at is to establish such a reserve of gold that the Government could announce that greenbacks would be redeemed at par. Immediately they would stand at par, and no man would want gold for ordinary purposes, when he could obtain greenbacks.

POLITICAL NOTES.

JOEL PARKER, of New Jersey, is mentioned for President by a correspondent of the New York *Tribune*, who thinks this would be a good time to resuscitate a War-Governor.

SENATOR SARGENT says Hendricks has the inside track for the Democratic nomination for President. He thinks the row in Ohio makes it absurd to think of finding a (Democratic) candidate in that State.

JUDGE TAFT, who was the competitor of General Hayes for the Republican nomination for Governor of Ohio, is making strong and able speeches for the Republican party in the campaign. He is doing the cause great service, by drawing to its support the great body of German Liberals who went off in 1872.—*St. Louis Globe-Democrat.*

OF Gov. Hayes, the Ohio Republican candidate for Governor, Col. McCook says: "If Hayes is elected Governor, he will be available for the Presidency. He's a fellow of amazing good and equal sense. He was a General in the war. An uncle died and left him $750,000. He is a man who has reserved powers, and a cool, judicial mind. It would be hard for the Republicans to get a better candidate."

PERSONAL.

SENATOR LOGAN has returned from his California trip.

SIR EDWIN WATKIN, M. P., who represents the Bondholders' Committee of the Erie road in England has arrived in New York.

WM. D. STEVENSON, for many years paymaster of the Cincinnati, Hamilton & Dayton Railroad, died at Hartwell, Ohio, last Tuesday.

THE Geographical Congress, in session in Paris, awarded medals of the first class to the Statistical Bureau at Washington and to Professor Hayden.

GEN. LONGSTREET has decided to become a citizen of Georgia and to settle in Gainesville, in that State, should his family be pleased with the location.

GENERAL SHERMAN will soon leave Chicago for a tour of inspection of the military posts of Missouri, Kansas and Minnesota, lasting for several weeks.

WHEN Joaquin Miller goes in bathing at Long Branch, the ladies flock along the bluff by the hundred, and marvel mightily at the extreme thinness of his legs.

THE Princess Louise, wife of the Marquis of Lorne, is executing a bust of her sister-in-law, the Countess of Percy, to be placed in Alnwick Castle, Northumberland.

SHEARMAN says that Beecher doesn't kiss any more than any other preacher. This makes the annual number of clerical kisses in the United States 27,395,486, without counting the legitimate domestic article.

IN a store window at Oswego there has just been placed on exhibition a musket of the Queen Anne pattern which was captured by Aaron Burr, while serving under Benedict Arnold, at the attempted storming of Quebec, on the night of December 31st, 1775. The gun weighs twenty-seven pounds.

IN the garden of the late Andrew Johnson's residence is a magnificent willow, grown from a twig taken from the willow which bends over the grave of Napoleon Bonaparte on St. Helena, and sent to the ex-President. A twig from this noted tree will be planted over Mr. Johnson's grave on Johnson's Hill.

IT is proposed to place a pedestrian statue of Col. Shaw, who fell at Fort Wagner at the head of a Massachusetts colored regiment, in the Memorial Hall at Cambridge. It was at first proposed to erect an equestrian statue, but as Boston has erected no monument of John Brown or Abraham Lincoln, the most conspicuous martyrs of emancipation, it was thought best to abandon that idea.

IRA WOOD, of Harvard, New York, was a son of whom his old father is justly proud. The two went into the woods near their residence on Monday to chop down trees. The son had hewn until a tree was on the point of falling, when he saw that his father was standing directly on the spot where it would strike. He called to the old man to get out of the way, but the latter was deaf and did not hear his son. The young man then ran to where his father stood, pushed him aside, and the next moment was himself crushed by the falling tree. Greater love than this hath no man.—*Phila. Times.*

POOR Grimwood's last utterances before ascending in the balloon with Donaldson: "I only care to go once, just for the experience. The wind is unfavorable, but perhaps an upper current will make that all right. I guess they are trying to frighten the reporters into showing the white feather, by saying that Donaldson expects to be carried into Michigan, with the chances of being gone two or three days. If I should see that we are getting into the lake, the first thing I shall do will be to pull off my boots, and, being perfectly at home swimming, I think I could then adjust my life-preserver and stand a good deal." Adieu." And that was the last word spoken by Grimwood in Chicago.

ITEMS OF INTEREST.

"As between a cucumber and a watermelon," says a Western editor, "give us brandy and water."

A PERFECT female mummy has been found in Grand Avenue Cave, Ky. It is supposed to be that of the wife of an old mound-builder.

THE twenty-ninth annual session of the Supreme Council of Templars of Honor and Temperance is in session in Chicago. It is in a flourishing condition.

THE new anti-tramp law is now vigorously enforced in New Hampshire. The vagrants march off to jail and work; and may be kept there for six months.

A WELL-TO-DO farmer of Williamsburg, Mass., went crazy last week from the ignominy of being served with a writ of execution for the first time in his life.

FOURTEEN saloons on one square are a source of pride to Terrehautentots.—*Indianapolis Journal.* That's nothing. One square in Pittsburgh can boast of nearer four hundred saloons.

AT Vincennes recently, during a marriage ceremony, the bride's teeth dropped out, which so frightened the unhappy man that he rushed off like an arrow, and has not been heard of since.

A FOXBORO man found a stray swarm of wild bees, the other day, and secured them and built a hive for them, and was happy until somebody told him they were hornets, and now he is miserable.

MENTION is made of a young clergyman at the West who was easily flustered, and being so on one occasion he preached from the text: "And immediately the cock wept, and Peter went out and crew bitterly."

THE Cairo & Vincennes Railroad track is eight inches under water for a mile and a half between Mt. Carmel and St. Francisville. The embankments are washed in several places from two to four hundred feet near the Wabash river.

A POET in Coffeyville, Kansas, has produced the following statistical verse: "Should millions into millions multiplied be, With ten million times ten million more, 'Twould scarcely express a millionth of *the* Grasshoppers that pass our door."

SOMEBODY profanely challenged the godless people of Cincinnati to repeat the Lord's Prayer, *verbatim et literatim*, for $100. One J. Smith writes to the *Commercial* that he is "about the size of a man who can get away with that snoozer's money."

A FIRE at Sacramento on Wednesday night, burned over two blocks, destroying Nichol & Co.'s woodenware manufactory, Harding & Co.'s planing-mill and sash and blind factory, a warehouse, and a number of frame dwellings. Loss $60,000; insurance light.

"JESSIE, what was Joe's arm doing round your waist when you were at the front gate last night?" asked a precocious boy of his sister. "His arm wasn't round my waist; I won a belt from him, and he was taking my measure," replied the indignant young lady.

A COURIER from the Black Hills reports that Red Cloud, Spotted Tail and other Indians are near Harney's Peak, demanding compensation for the damage done their country, and that Pollock wishes to know if General Crook has any orders for him in case he meets the chiefs.

A COMPANY of German monks, who were lately expelled from their native country, have settled in New Jersey, at West Paterson, and intend erecting a monastry on some land they have purchased there. They belong to the Order of St. Elias, and seem to be possessed of ample means.

"MY dear," inquired a young wife of her husband, as she reached up her little mouth to be kissed on his return from business, "have you seen the magnificent set of walnut furniture which the Jenkinses have just bought?" "Hem, no, my love; but I have seen the bill, which quite satisfies me."

MRS. COLLIER, a Springfield, Ill., "spiritualist," on retiring from business, makes the following frank statement: "I have long thought, and I now know, it is absolutely impossible for a medium to be absolutely, strictly honest and get the adequate remuneration for the time and trouble expended."

AN ice cave, just discovered near Decorah, Iowa, is attracting large parties of sight-seers. The passage way is three-fourths filled with ice, and there is a flooring of the same for twenty feet. At one spot is a cone of ice fastened to the wall, which is three feet in diameter at the base, eight to ten feet high, and twenty inches across the top.

IN 1874 the number of sailing vessels in the merchant marine in the world was 52,289. The number of steam vessels was 5,365. America owns 6,879 sailing and 613 steam vessels. Great Britain owns a much larger merchant marine than any other country. The large number of 20,538 sailing and 3,002 steam vessels carry the English colors.

A BLACK MAN, with sober visage and a white cravat, arrived in Boston the other day, and went straightway over to Charlestown. Solemnly he marched to the foot of Bunker Hill monument, and took off his hat in its shadow. Then he called out in a loud voice, "William Graves!" and answered himself, "Here!" And then he said, "But I am a free man, by the grace of God and the proclamation of the martyr President." He used to be a slave of Robert Toombs, in Georgia, and he had come all the way to Bunker Hill to get off this little sarcasm on his old Master's wild prophecy.

JOSEPH HINES, a negro farm hand, at Rock Wharf, Virginia, was deeply attached to a valuable horse of which he had the care. He slept in the barn near the animal, and was assiduous in his attention. The horse was injured so badly by a collision with a gate that it was necessary to kill him. Hines said that if the horse was killed he would die too; and he meant it, as the sequel proved. The horse was taken to the edge of a wharf and shot. At the discharge of the gun the negro jumped into the river, and, although planks were thrown to him, he would not save himself.

THE large elephant Empress, which died at the Zoological Gardens, Philadelphia, recently, has been dissected. The removal of the skin disclosed a diseased condition of the flesh, but the muscles were found to be healthy and immensely developed. As compared with the great size of the animal the brain was found to be very small, weighing only eight or ten pounds, whereas the weight of the brain of an average male is a little more than three pounds. The stomach was found to be a sac about six feet in length, and the intestines was more than sixty feet in length, and from six to twelve feet in diameter. The abdomen was found to be diseased with tumors, which were the cause of the death of the animal. The heart very much resembled that of a man.

MUSICAL AND DRAMATIC.

TONY PASTOR, the variety singer, is reported to be worth $100,000.

THEY say that papa Offenbach never allowed his daughter to see his operas till she was married.

MRS. HERMAN VEZIN and Mr. Chippendale have organized a traveling company to play through the British Provinces.

MR. AND MRS. SOL. SMITH have accepted engagements in Miss Charlotte Thompson's theatrical company, as first old man and first old woman.

MISS ADELAIDE PHILLIPPS is organizing a new Italian Opera company at Boston. Her sister, Miss Matilda Phillipps, will sing in the new company.

MRS. DAN BRYANT has been paid $16,163.99 by Messrs. Josh Hart, W. R. Floyd and A. M. Palmer, the trustees of the Bryant Relief Fund. Further amounts still uncollected will probably be added to the fund.

THE statement is made that "Little Nell" will shortly marry, and leave the stage. The stage would gain by the retirement from it of all the ladies whose stock in trade consists of a light pair of heels and a pet name.

MISS KELLOGG has perfected her arrangements to open the operatic season at New York on the 11th of October next. She has engaged, as a prima donna, the promising young Baltimore cantatrice, Miss Annis Montague.

WE learn that Mr. Bartley Campbell intends to open Hooley's Theater, Brooklyn, for the new season, with a company including Miss Katharine Rogers, Mrs. Clara Fisher Maeder, Miss Marion Fiske, and Mr. James O'Neill.

MME ARABELLA GODDARD, the pianist, who, after a visit to the European capitals and concerts in India, Java, Australia and New Zealand, began last February at San Francisco a tour of the United States, will be in New York in October.

HOOLEY is once more happy. He was separated for a month from Bartley Campbell, but now they are together in Brooklyn. Such devotion is touching, especially to Campbell, who wants to have Hooley's Brooklyn Theatre renovated at Hooley's expense.

MR. BOUCICAULT is playing the "Shaughraun" in San Francisco. His first week was the greatest ever known in the annals of the stage on that coast, the receipts being $12,496, gold, equal to $15,200, currency. He is playing at McCullough's Theatre.

LAWRENCE BARRETT has a beautiful villa, perched on the rocks at Cohasset, Massachusetts, and is residing there now with his family. Mr. Barrett has three interesting daughters. His near neighbor is Mr. Stuart Robson, who occupies a cottage with his family, and near by is Bret Harte.

THERE are at least 300 American girls studying for the operatic stage in Italy. A three years course for a pupil cost about $5,000 in gold. Then the girls come back too high-toned to sing in the village choir, too dramatic and squally to please in a parlor, and unable to sing in opera without paying for the privilege.

SUMMER RESORT GOSSIP.

MRS. SECRETARY BELKNAP will spend part of this month at Newport.

CAPE MAY has an ocean pier now just like Long Branch, but the probabilities are that both will be carried away by next winter's storms.

A SEA-SIDE snob, asking permission of a sarcastic patrician New Yorker "to marry one of his girls," was confused by the hearty reply of the parent: "Certainly, sir; which do you prefer, the housemaid or the cook?"

IT is said to be a positive pleasure to breathe at Rawley Springs, Va. "One would imagine," writes a correspondent, "that all new comers have the gapes, but they are only inhaling the exhilerating atmosphere. The neighboring streams abound in trout, and the forests are full of game.

THE Saratoga *Sun* has the following in regard to the proposed dispensary for the benefit of those invalids who do not know what ails them:—"Persons who are sick and come here to be cured by the waters when they need medical advice can afford to pay for it. If there were no doctors in town there might be cause of complaint. Those who are not sick will not be injured by whatever waters they may drink." It is only what they mix with them that plays the mischief.

MRS. EX-SENATOR GWIN, formerly a queen of Washington society, and daughter Carrie, are at the Virginia White Sulphur Springs. Among the other ladies at the same favorite summer resort are Mrs. Robert Toombs, of Georgia; Mrs. Sallie M. Ewing Pope and Miss Sallie C. Marshall (granddaughter of Chief Justice Marshall), of Louisville, Ky.; Mrs. Daniel W. Voorhees and daughter Hattie, of Terre Haute, Ind., and friend; Miss Mattie Mack, of same place; Mrs. Kizer and daughter, of Mississippi, cousin to Miss Gwin, and also Mrs. Muger, of Mobile.

The Vineland Shooting.

It appears that the affair between Landis and Caruth, of Vineland notoriety, has not been settled by the payment of $30,000 by the former to the latter. An attempt had been made at settlement but failed on account of the amount of money offered. Mr. Caruth proposes to settle for $50,000, as he is disabled for life and has a large family to support. His expenses for physicians called from Philadelphia were, with heavy incidentals, about $1,000 per month for a period of nearly three months. The expenses alone consumed the most of the purchase-money of his printing establishment, which he was compelled to sell.

Mr. Landis and his wife have separated, she having applied for a divorce, and with his family troubles and this affair with Mr. Caruth his prospects for the future are very gloomy. One hardly knows which of the two to pity most—Mr. Caruth for being stricken down and rendered helpless for life, or Mr. Landis for being precipitated from a high and wealthy station in life to certain ruin pecuniarily, and a prospective felon's cell.

Moody and Sankey's Movements.

In answer to the inquiry of a London interviewer as to the future programme of the evangelists, Mr. Sankey said:

"Our first bodily wish is for rest. Mr. Moody shall go home to his mother in Massachusetts, and I shall retire for a few weeks to my old home in Pennsylvania."

"After which you will renew your work in your own country?"

"We hope to be used by the Lord among our own people. Already we have requests to visit Cincinnati, Rochester, San Francisco and Chicago. We expect and hope to go to all the larger cities—preaching, singing, exhorting, praying. Nothing can discourage us so long as we feel that the Lord and His grace is with us. Mr. Moody is passing a few days with Mr. James Balfour, of Liverpool, in his country seat in Wales. Our last meeting in England will be held in Liverpool, on August 3. The English press has been exceedingly fair with us, and that is all we want. We are open to criticism, of course, and we expect it."

WEST POINT.

'Twas Commencement eve, and the ball-room belle
In her dazzling beauty was mine that night,
As the music dreamily rose and fell,
And the waltzers whirled in a blaze of light.
I can see them now in the moonbeam's glance
Across the street on a billowy floor,
That rises and falls with the merry dance,
To a music that floats in my heart once more.

A long half-hour in the twilight leaves
Of the shrubbery—she, with coquettish face,
And dainty arms in their flowing sleeves,
A dream of satins and love and lace.
In the splendor there of her queenly smile,
Through her two bright eyes I could see the glow
Of cathedral windows, as up the aisle
We marched to a music's ebb and flow.

All in a dream of Commencement eve!
I remember I awkwardly buttoned a glove
On the dainty arm in its flowing sleeve,
With a broken sentence of hope and love.
But the diamonds that flashed in her wavy hair,
And the beauty that shone in her faultless face,
Are all I recall as I struggled there
A poor brown fly in a webb of lace.

Yet a laughing, coquettish face I see,
As the moonlight falls on the pavement gray,
I can hear her laugh in the melody
Of the waltz's music across the way.
And I kept the glove so dainty and small,
That I stole as she sipped her lemonade,
Till I packed it away I think with all
Of those traps I lost in our Northern raid.

But I never can list to that waltz divine,
With its golden measure of joy and pain,
But it brings like the flavor of some old wine
To my heart the warmth of the past again.
A short flirtation—that's all, you know,
Some faded flowers, a silken tress,
The letters I burned up years ago,
When I heard from her last in the Wilderness.

I suppose, could she see I am maimed and old,
She would soften the scorn that was changed to hate
When I chose the bars of the gray and gold,
And followed the South to its bitter fate.
But here's to the lads of the Northern blue,
And here's to the boys of the Southern gray,
And I would that the Northern star knew
How the Southern cross is borne to-day.

L. C. STROKE.

A MYSTERY CLEARED UP.

A Negro Girl Throws Bricks and Stones, and for a While Her Mischief is Ascribed to Spirits.

The Atlanta (Ga.) *Herald*, of the 7th inst., thus tells how a girl's mischievous acts were exposed: "All newspaper readers in this State remember the startling and unaccountable manifestations which occurred at Surrency, on the Macon & Brunswick Railroad, a year or two since, and which was attributed to the agency of spirits. The house of Mr. Surrency was turned into a pandemonium for the time being. Crockery from unseen sources would fall into the middle of the rooms, brick-bats would crash down, and billets of wood would be hurled in at windows, seemingly without any human agency. The wonderful occurrences, however, finally stopped, and after a while lived only in the remembrance of those who had witnessed and heard of them. Some time since similar manifestations began in the family of a very estimable lady, Mrs. Russell Johnston, of Bartow, on the line of the Central Railroad. The crockery, brick-bats, and other portable and small articles rained about the house, in the most astonishing manner, causing no little terror to the inmates. However, Mr. John A. McMillan, a son-in-law of Mr. Johnson, not being frightened entirely out of his wits, noted the similarity of the manifestations to those at Surrency, and finally remembered that they had employed in the family as a servant at the time a colored girl, who had also been in the employ of Mr. Surrency at the time that those strange freaks of the unseen agency took place in his house. Thinking that the two must certainly have some connection with each other, a strict watch was kept upon this girl, and she was finally detected in the act of taking a brick from a concealed position about her person, and hurling it into the middle of the room. Here, then, was the secret. She was immediately apprehended, and under fear of being dealt with by law, confessed that she was the author of the mischief.

WHEREAS, By the provisions of an Act of Assembly entitled "a further supplement to an Act concerning streets and sewers in the City of Pittsburgh," authorizing the Councils of said city to open and grade streets, lanes and alleys, or parts thereof, when necessary for the purpose of laying water pipes, approved 19th March, 1873, the Select and Common Councils of the City of Pittsburgh are authorized, whenever in the opinion of Councils it shall be necessary for the laying of water pipes to declare open and cause to be graded any street, lane or alley, or part thereof which was then or should thereafter be located; And whereas such necessity has arisen for the opening of Hiland avenue, from Butler street extension to the reservoir, therefore,

SECTION 1. Be it ordained and enacted by the City of Pittsburgh in Select and Common Councils assembled, and it is hereby ordained and enacted by the authority of the same, That the City Engineer be and he is hereby authorized and directed to survey and open, within 60 days from the date of the passage of this Ordinance, Hiland avenue, from Butler street extension to the reservoir at a width of fifty (50) feet in accordance with a plan on file in the Engineer's office, approved by Ordinance passed by Councils of even date herewith. The damages caused thereby and the benefits to pay the same to be assessed and collected in accordance with the provisions of an Act entitled "An Act concerning Streets and Sewers in the city of Pittsburgh," approved January 6th, 1864, and the several supplements thereto.

SEC. 2. That any Ordinance or part of Ordinance conflicting with the passage of this Ordinance at the present time be and the same is hereby repealed, so far as the same affects this Ordinance.

Ordained and enacted into a law in Councils this 28th day of July, A.D. 1875.

Latest Advices Concerning Money and Stock Matters.

OFFICE OF THE PITTSBURGH GAZETTE,
FRIDAY, August 13, 1875.

The money market continues about as last reported. There is sufficient and to spare for all first-class borrowers, and in that sense may be said to be remarkably easy, while those who cannot furnish the most unobjectionable securities find it tight and hard to obtain at almost any rate of interest. Quotations range almost anywhere from 6 to 12 per cent., according to the securities offered. Real estate is becoming more active, several considerable sales having been made within a few days at good prices.

NEW YORK, August 12, 1875.

Gold opened at 113⅞, advanced to 114, fell off to 113½, and closed at 113⅝. The borrowing rates were 1 to 3 per cent. per annum, 1-64 per diem, and flat. Governments closed firm. Railroad bonds are in active demand. Chicago & Northwest consolidated coupon gold bonds were firm and advanced to 88. Ohio & Mississippi consolidated advanced to 96. South Pacific of Missouri declined ½ per cent., selling at 95. St. Louis & Iron Mountain second sold at 51. State bonds were firm this afternoon, with an advance in Tennessee, old selling up to 52½ and new to 51. Missouri long 6s brought 101 3-4.

The Sub-Treasurer to-day opened bids for $1,000,000 gold, aggregating $3,369,500, the lowest being 113.35 and the highest 113.84. An award of $1,000,000 was made at 113.77 to 113.84. The specie shipments to-day were $490,000, of which $250,000 was gold coin and the remainder miscellaneous.

The stock market was strong and higher throughout the day, and closed dull and steady at about the best quotations made. Western Union was more active and advanced to 82⅞, Lake Shore to 60⅞, Pacific Mail to 39⅛, Northwest to 41⅞, and Ohios to 19½. Union Pacific advanced to 73¼, and closed at 72⅞. There was a general advance in shares of the Missouri roads, which declined sharply yesterday. Missouri Pacific advanced to 46½, Atlantic & Pacific preferred to 12⅞, Kansas Pacific to 12, and St. Louis, Kansas City & Northern preferred to 26 bid. Atlantic & Pacific Telegraph advanced to 20½.

The *Evening Telegraph's* special from London at 3:30 to-day, says: Generally speaking, the market to-day is much brighter than it has been during the week. The tendency to decline in values, the flatness that arose from failures, and the rumored failures have passed away. The announcement of the suspension of Thompson, in the iron trade, had only a temporary effect.

The transactions to-day aggregated 53,000 shares, of which 1,416 were Erie, 6,200 Lake Shore, 1,500 Northwestern common, 3,800 Pacific Mail, and 29,250 Western Union.

Condition of the Markets at Home and Abroad.

DAILY REPORT OF PITTSBURGH MARKET.

OFFICE OF PITTSBURGH GAZETTE,
THURSDAY, August 12, 1875.

Trade in all departments continues to move sluggishly, but there is probably as much doing as there usually is at this particular time. The markets for general merchandise are quiet, and with the exception of Flour and Grain, there have been no important changes in values recently. The weather continues favorable for harvesting, and not only has the great bulk of the wheat crop been safely housed, but a few days more of dry weather and Rye and Oats will also be secured. It begins to look as if the reports in regard to the damage done by the recent floods were considerably exaggerated.

BEANS—The stock in this market is very small, but there is little or no demand. Prime mediums quoted in a jobbing way at $2,10a2,15 per bushel.

BROOMS—"Union Factory" Brooms No. 2 common, $2.25; No. 3 hurl, $2,50; No. 4 hurl, $3; No. 5 hurl, $3,50; No. 6 hurl, $3,75; No. 3 carpet, $4; No. 4 carpet, $4,25; No. 5 carpet, $4,50; Fancy parlor, $4,75; Steamboat brooms, $3a4; Whisks, plain, $1,25a1,50; fancy whisks, $1,50a2; toy brooms, $1,25a1,75.

BUTTER—The receipts continue light, which may be attributed to the fact that country people are busily engaged in harvesting, as the securing of their crops is more important than the marketing of Butter. Sales of prime to choice solid packed at 22a24; occasionally 25 is obtained, but it is an outside price, and can only be realized for something very fine. Low grade Butter continues dull. A New York report, under date of the 11th, says: The market was running along well enough until it struck into the rut occasioned to-day by a receipt of over 8,000 pkgs. at once. The feeling cannot be otherwise than weak under such heavy invoices, and though it is too soon to see the real effect of the excessive supplies upon the market, a shading of prices cannot be far off. Most of these enlarged receipts are Western, coming from Michigan, Minnesota, Northern Illinois and Iowa, where they have been held since their make in June. There was already some accumulation of Western in the cellars, and at the close there is every indication that they have been held back a little too long. It is thought that few packages are of a grade that will suit the current wants of market and fair grocery trade. About the only grade of Western that moves with any activity is fresh-flavored half tubs. A large proportion of to-day's receipts was composed of firkins. They are offered freely at 20c without takers. In State Butter there is a good feeling in the better classes of tubs, and pails retain considerable firmness. An overstock market, however, seldom allows extra buoyancy, especially in a summer month. Retailers have time to "shop" a good while, and with such large totals as have appeared several times this week they can be pretty sure of finding something quite good enough for the wants of the reduced trade, and are saved the compulsion of choosing between very poor and fancy. In the State Butter districts a very general offering of fine stock is made at 30c. Some prominent New York houses have stopped paying that figure.

CHEESE—The market is reported easier, but prices remain unchanged at 11 1-2a12c for prime Ohio Factory. A New York exchange, of Wednesday, reports as follows: The market here has ruled very weak for several days. Shippers have stocked up so heavily that they had to be sought for in order to effect sales, and when this is the case there is apt to be considerable cutting in prices. On Friday last the market was almost in a state of panic, and quotations were forced down to 11c, but then sellers soon recovered their nerves, and declined to continue the concession. To-day rates are very undecided; shippers are not anxious for stock, and, on the other hand, the failure of a prominent shipping house has deprived sellers of the desire to sell incautiously. Fine Factory has sold to some extent at 11¾c, but 11½ is more frequently quoted for about the same style of cheese. There is some surplus, but nothing that would be annoying if everything was in smooth running condition.

EGGS—The arrivals continue light, but with a supply considerably in excess of present requirements, prices are barely maintained—15a16. There are very few buyers, except bakers and hotel keepers.

FRUITS—Apples continue to come in freely, and the market is weak, $3.00a4,00 per bbl. Peaches coming in freely, and prices are lower; $1a1,50 per box, the outside figure for choice. The most of the receipts recently have been common in point of quality and in bad condition. Plums, $2,50a3 per box; Pears, $3a4,50 per box. Blackberries, $1,50 per pail. Whortle Berries, $1,50a1,60 per pail. Water Melons lower; $10a15 per one hundred. Cantelopes, $2a5.

FLOUR—The general tone of the market is scarcely as strong as it was in the early part of the week, but prices are still maintained, and some operators are impressed with the belief that they will go higher yet. The best brands of Spring and winter flours may be quoted at $7,50a7,75, although the most of the sales are at the inside quotation. Rye Flour, $6,25a6,50.

GROCERIES—Notwithstanding the dispatches from the east report Coffee quiet, the general tone of the market is firm, and as present prices scarcely cover the actual cost of importation, a further appreciation is probable. Sugars continue weak, except for Crushed, which is firm, in consequence of an export demand. Soft Sugars are lower. No movement in Syrups or Molasses of any moment.

GRAIN—There has not, that we are aware of, been a single transaction in Wheat in this market for a week or more; and there is none coming in excepting what is consigned to the mills, and they are getting but little. It is, therefore, difficult to give quotations in the absence of sales, but it cannot be brought here from the west and sold under $1,55a1,60 for prime old red winter, and afford the dealer a commission. The supply of Oats, on spot, continues very light, and prices are still maintained; 65a66 for mixed, and 68a70 for white. However, the demand is very meagre, and sales for future delivery could not be made at anything like quoted rates. Corn is also in very light supply, but there is not a great deal of inquiry for it; Ear, 84a85 on track, and Shelled 82a84, free in elevator. No movement in Rye; none offering, and there does not appear to be much call for it.

HAY—Baled is still quoted on track at $25a27 for good to prime old. Loose is quoted from country wagons at $15a24, and old at $27a30, according to quality and condition.

POTATOES—In light supply, and prices are still tending upward; $2 50a2,75 per bbl. Sweet Potatoes, $5,50a6 per bbl.

PROVISIONS—The market continues fairly active and firm; as will be seen we have advanced our quotations on Sugar-Cured Hams, Shoulders and Mess Pork.

PITTSBURGH PETROLEUM MARKET

OFFICE OF PITTSBURGH GAZETTE,
THURSDAY, August 12, 1875.

The Crude market continues steady, and while there is no special activity, the general feeling is that of increased firmness. It is stated that there are about 28,000 bbls. per day being shipped out of the producing regions, whereas the production does not exceed, if it reaches 25,000 barrels, showing that the stock is being decreased at the rate of 3,000 barrels per day, and some operators are impressed with the belief that there will be considerable of a reduction in stock during the balance of the year. Immediate shipment was quoted at $1,20, and United at 97¼ asked and 96¼ bid; sales of Conduit certificates at 95. Refined more inquired for, but prices remain as last quoted; 8¾ on Penna. cars, and 8⅝c on Pittsburgh & Connellsville.

There is a fair business, but prices remain unchanged, countries, $1,20a1,30; city make, $1,35a1,40.

THE WOOL TRADE.

Philadelphia.

PHILADELPHIA, August 10.—The market presents the same general features noted in our report last week. The depression in manufactured goods and the closing of a number of the large mills throughout New England have curtailed the demand for the raw material, hence the accumulating stocks in the hands of dealers. Colorado and medium grades of combing are in good demand at full prices. Sales of five hundred thousand lbs. at the following quotations: Pennsylvania, Ohio and West Virginia, fleece XX and above, 50a52c; X at 50a52c; half blood, 52a53c; quarter-blood at 50a52c; combing—fine unwashed, 32a34c; medium unwashed, 37a40; washed fleece, 60a65c; unwashed fleece, 42a45c.

NEW YORK.

The market is less active, and supplies continue to increase of new Fleeces; Medium do. good staple are scarce, and fine grades combing command full prices. Fine Fleeces are neglected and values favor the buyer. Manufacturers are indifferent in their efforts to secure stock, and are contending for lower prices. Carpet Wool meets with fair inquiry at steady rates. Of Pulled Wool the supplies are light, and holders are firm in their views. It is the opinion among the trade that Wool is not likely to advance unless there is a decided improvement in the woolen goods trade to stimulate more activity among manufacturers, although the goods trade expects to do a good business this Fall. Buyers and manufacturers have made a fair inquiry, and ere the close of the week some large sales are probable. The sale embrace 12,000 lbs. Spg. Cala., Burry, at 21c; 6,000 lbs. X Michigan Fleeces at ... 3,000 lbs Cape at 35c; 16,000 lbs. Spg. ... private terms; 3,000 lbs. Scoured at 63a86 ... 5,000 lbs. Fall Cala. at 22 cents.

PITTSBURGH LIVE STOCK MARKET.

OFFICE OF PITTSBURGH GAZETTE,
THURSDAY, August 12, 1875.

ARRIVALS.

Following were the arrivals of live stock at the Pittsburgh Central Stock Yards from Sunday up until noon to-day, and, to afford a comparison, we append those of the corresponding time last week also:

	Cattle.			
	Through.	Local.	Hogs.	Sheep.
Sunday	56 cars	31 cars	43 cars	12 cars.
Monday	34 "	14 "	9 "	4 "
Tuesday	— "	81 "	12 "	43 "
Wednesday	15 "	61 "	12 "	25 "
Thursday	3 "	63 "	12 "	8 "
Total	108 "	250 "	88	92 "
Same time last week	51 "	172 "	81	78 "

CATTLE.

The arrivals thus far this week has been heavy, especially of yard cattle, which, if we mistake not, were the largest we have had to record this season; the receipts of local show an increase of 78 cars, as compared with the same time last week, while the through consignments were 57 cars larger, making an aggregate increase of 135 cars. The sales footed up 3,247 head against 3,076 same time last week. It is worthy of notice that notwithstanding the largely increased receipts and offerings, the volume of business was not much larger than that of the corresponding time last week, from which it follows that there have been a good many shipped on in first hands, or else there must be a good many remaining in the yards unsold. It is true, there were a good many unsold this afternoon, but we are satisfied that the largest proportion of the excess has been shipped on in first hands, and the probability is that the most of those remaining unsold will have to go on in first hands between now and the close of the week, as the great majority of the buyers have already gone home, and those still in attendance will not buy unless they are given liberal inducements. This was the general position of the market to-day. It was not as favorable for the selling interest as it was on Wednesday, and it may be attributed to the fact that the arrivals were much larger than was expected; furthermore, trade was not as satisfactory yesterday as it was expected it would be on Tuesday. In a word, the market appeared to grow worse each succeeding day, especially for common stock, of which the supply largely consisted, and, as compared with the early part of the week, have declined from a ¼ to ⅜ of a cent per lb. for the kind of stock in question. Prime to extra beeves sold fully as well as they did last week, not that there was an increased demand, but because the supply of this character was light, as it has been for some time past.

Philadelphia buyers took 75 cars; country dealers and butchers, 86 cars—there was not a single bullock purchased for New York that we could hear of; Baltimore has bought nothing here for several months. We are dependent mainly upon Philadelphia and various points in the eastern part of the State for buyers, and this week there were more, particularly common stock, than they could make away with; it was hoped and expected in the spring that we would have some New York buyers every week, but thus far they have been, as the saying is, few and far between.

There is a very general complaining in stock circles, and it has been very common all this year; both eastern and western drovers assert very emphatically that they are making no money, and it is well known that butchers are doing no good, that at the present cost of cattle there is no margin for profit in beef. Growers are doing well, and they, with the railroads, are making about all the money that is to be made in the stock trade. Scarcely a week elapses but drovers and butchers are reported financially embarrassed, and unless cattle recede in price or times get better, we fear the end is not yet over. It strikes us that there are too many in the shipping trade; until the number of buyers in the west is materially reduced, there will, of necessity, be an active competition, and prices will be maintained. We like to see the farmer get a good return for everything he has to sell, but they should be willing to let others live as well as themselves, and the cost of living should be reduced in order to correspond with the reduction in wages. A great proportion of the masses have to buy beef very sparingly—many who are out of employment as well as funds, have to dispense with it almost entirely.

SHEEP AND LAMBS.

The run of this class of stock has been heavy, unusually so, and mostly common in point of quality. However, while the decline in the lower grades was the greatest, prime sheep also ruled lower, and the market closes very dull for all kinds. Salesmen reported a decline of ¼ to ⅜ on common, and 10a15c on the best; the great proportion of the supply consisted of these grading common to medium, and this accounts for the decline being so much greater in the one case than the other. The market was considerably overstocked with common stuff, while of prime fat stock the offerings were not so excessive, and in addition, it always sells to better advantage no matter how hard the market may be. Lambs continue very dull; and prices have further declined.

HOGS.

The run continues light, and mainly common in point of quality, and the consequence is that while prime heavy weights have advanced 20a25c per cwt, light hogs, better known as Yorkers, have not more than held their own. The arrivals of grass hogs are increasing, while those of good cornfed are falling off, and there is a wider range in prices, owing to the fact that there is a greater difference in quality. The market to-day was generally reported dull and offish except for prime Philadelphias which were very scarce.

L. A. WELSH,
Sergeant Signal Service, U. S. A.

THE stage of water last evening was five feet and falling slowly. There was a heavy shower of rain in the afternoon, and the indications in the evening were favorable for more. Business continues very dull at the landing.

THE Exchange was to have left Cincinnati for this port on Saturday.

THE Salt Valley is due on Sunday, and will return on Monday at 3 P. M.

THE Ashland, as will be seen by card, is announced to depart for Cincinnati to-morrow.

THE Granite State and the towboat My Choice arrived. The latter boat made a remarkably quick up trip.

THE Ashland, from Cincinnati, and Utah and Fannie Tatum, from St. Louis, are among the first boats due.

THE Rosa Miller got considerable freight yesterday, and, as will be seen by card, she is announced to take her departure on to-morrow, Saturday.

SOME people are disposed to be doubtful about the fulfillment of Capt. Danny McAleer's prediction in regard to a coal-boat rise on or about the 16th, notwithstandieg the fishes, in which Capt. Danny places so much faith.

THE dam which is being constructed from the foot of Marietta Island to the Muskingum will be about 1,800 feet long and 26 feet wide. The object of this dam is to wash out the bar at the mouth of the Muskingum, which is the most difficult place to pass between Pittsburgh and Cincinnati.

CAPT. PHIL. ANSCHUTZ, who has for several years commanded the steamer Express, has disposed of his interest in the Wheeling, Parkersburg & Cincinnati Transportation Company to Captains C. H Booth and John Mulrine, both leading stockholders in the company. Captain Asa Booth will succeed Capt. Anshutz in the command of the Express.

A ST. LOUIS dispatch, under date of 10th says: The Missouri and Mississippi are beginning to cause boats trouble, and two of the packets are behind time, having been delayed by grounding. Business is looking up, and the prospect is brightening, since it is ascertained that the Southern crops will not be much damaged. The John F. Tolle cleared for New Orleans, with all she wanted, and the Belle of Shreveport begins loading to-morrow, to follow on Saturday. H. A. Dorhman, her clerk, is expected to arrive from Steubenville to-morrow. Captain H. A. Jones, of Cincinnati, is in the city, and remains until Saturday. The Wild Duck leaves for Pittsburgh on Thursday. Commodore W. F. Davidson leaves Keokuk for home to-morrow, having sufficiently recovered to venture out. W. J. Kountz is still here.

Making Ready for Snags.

The long-continued outpouring of the waters from the upper world, and the unprecedented floods in our rivers at a time of the year when not expected, says the Cincinnati "Commercial," has rendered it pretty sure, judging from past history, that during the latter part of the year there will be a dearth of pluvial showers, and hence a low stage of water in the Ohio and its tributaries, and difficult navigation. With this in view, it will be good news to our steamboatmen and other watermen to learn that Uncle Sam has already discounted the expected drouth, and is preparing for it by building at Pittsburgh a mammoth snagboat, with an iron hull, the dimensions of which will be as follows: Length, 175 feet, with 48 feet beam; capacity, 270 tons; dimensions of hull between perpendiculars, 175 feet; width, 48 feet; width over wheel, 73 feet; extreme height of inside plating, 7 feet 6 inches; crown of deck from center line, 6 inches; reversed sheer each way from center, 1 foot 6 inches; dead rise of floor, 2½ inches; draught, 2 feet 2 inches. The main engines are 20-inch bore, 6 foot stroke, fitted with balanced side valves and reversible back motion. There are four cylindrical returnflue boilers, 24 by 40 inside diameter; each boiler has two 14½-inch flues. Shell of boilers to be of 26 105-best charcoal iron. On this powerful craft there will be eight engines in all, the minor ones to be used for the different operations in removing formidable snags. The butting beam is to be 8 feet 3 inches deep, fore and aft, and 17 inches thick at its forward side, and 2 feet at its aft side. This snagboat is being built under the orders of Col. W. E. Merrill, having in charge the Ohio River Improvements, and under the personal supervision of Wm. Weston, Chief of Construction. The mechanical drawings were made here in Cincinnati, in Col. Merrill's office, by George S. Kinsey, Mechanical Engineer. The engines and other machinery is being built by Messrs. Hartupee & Alexander, of Pittsburgh. The boat is about one-third completed, and is expected to be ready for business about the 15th of November next. Snags will take warning. The hull of this iron steamer was built at Cincinnati by Swift.

DAILY GAZETTE.

Circulation, 15,800.

THE WEEKLY GAZETTE.

The current issue of the WEEKLY GAZETTE is for sale on our counter to-day. It contains a complete *resume* of local and general news, telegraphic intelligence from every part of the world, commercial, financial, oil and cattle market reports, and editorials on all the leading topics of the day; altogether, thirty-six columns of choice reading matter, embracing subjects of interest to the lawyer, the doctor, the merchant, the mechanic, the farmer, and the family. The reputation of the GAZETTE is so thoroughly established, especially in the correctness of its commercial and market reports, that it has gained a circulation

The Largest in Western Pennsylvania.

It is, at the same time, the cheapest in the list of weeklies of its grade. The subscription and club rates are as follows:

TERMS—Single copy, $1.75; clubs of five, $1.50, clubs of ten, 1.40: this includes postage paid by the publishers. A copy of the WEEKLY GAZETTE will be sent free to the party who acts as agent, for every ten numbers paid for.

Its especial merits are:

It contains the Latest News from all parts of the World.

Its Market Reports are prepared especially and exclusively for this journal, and are the only reliable ones published in Pittsburgh.

It is especially adapted for the Farmer, Mechanic, Merchant and general Family use.

The large circulation of the GAZETTE is attributable to the recognition of its merits, and not to the efforts of canvassers who make a business of securing names on a percentage. Postmasters at many points have acted for us, and these alone are our accredited agents. All desirous of receiving the best Weekly published in Pittsburgh should subscribe at once FOR THE GAZETTE.

HOME NEWS.

The Gazette for the Summer.

Persons leaving the city for the summer can have the DAILY GAZETTE sent to them by mail, by leaving their orders at the counting-room.

Alleged Forgery.

Wm. Zibberman was arrested yesterday on a warrant issued by Alderman Larkin, at the suit of Thomas Conway, who alleges that the accused forged his name to a promissory note for $300. Zibberman being unable to furnish $1.000 bail was committed for a hearing.

Police Committee.

Last evening the Police Committee of Councils held a special meeting, Mr. G. L. Braun in the chair. The rules prepared by Major Hartzell for the government of the police force were read, discussed and approved. Some little bills were ordered to be paid and the session was at an end.

That Forged Writ.

A hearing was had in the case of Jas. H. Lewis, the man who served a forged writ of *habeas corpus* on Superintendent Cordier for the release of a woman named Maud Hovey, before Mayor Phillips yesterday afternoon. Lewis was committed to jail in default of $1,500 bail to await trial at court.

A Complaint.

A gentleman called on Mayor McCarthy, yesterday afternoon, and complained about a number of men and boys, who make a practice of playing base ball on Twentieth street, near Penn avenue, every Sunday morning. His Honor directed the gentleman to get the names of a number of the leaders in the matter, and assured him that he would put them through.

Resignation Accepted.

At a special meeting of the Allegheny Board of Poor Directors, held on Wednesday evening, the resignation of Mr. D. F. Johnson, as Steward of the Poor Farm was submitted and accepted, to take effect on October 1st.

There are already three or four candidates for the office, and one of the members of the board, it is said, will be a candidate.

An Old Pittsburgher.

Mr. Wm. G. Alexander, of Clayton county, Iowa, is on a brief visit to his friends in this city. The older citizens will remember Mr Alexander as at the head of the jobbing dry goods house of W. G. Alexander & Co., on Wood street, about thirty years ago. He left this city in 1848, and has resided in the West ever since. He is now three score and six years old, and in vigorous health, looking nearly as fresh and full of energy as thirty years ago. He is a native of this city, and has been warmly greeted by those of his cotemporaries who survive.

Thieves in Camp.

The good people who have been worshipping in the woods at Castle Shannon have had a visit from some members of the light fingered brigade. Yesterday morning one of the family tents was discovered to have been robbed during the night, and earrings, breastpins, watch chains, and other jewelry stolen. A small candy stand just outside the camp ground was pried open, and candy, cigars, etc., were carried off. The ticket office of the railway company was also burglarized. From the circumstances it is thought that the perpetrators are a crowd of bad boys, and measures have been taken for their arrest. May they be successful.

Goods for the Exposition.

The following letter is self-explanatory:

PENNSYLVANIA R. R. CO.'S OFFICE,
PHILADELPHIA, August 10, 1875.

A. J. Nellis, Esq., President of the Tradesmen's Industrial Institute, Pittsburgh, Pa.

DEAR SIR:—Mr. Scott has referred to me your favor of the 4th instant, and in reply I beg to say that we will carry free *return* articles exhibited at the Exposition, on which full freight has been paid one way, and which has not changed hands.

We will also issue excursion tickets from points in the immediate vicinity of Pittsburg to Pittsburgh, during the Exposition.

Your truly,
A. J. CASSATT,
Third Vice President.

That Stone Contract

In yesterday's paper reference was made to the allegation that Councilman Metzgar had been investigating the quality of the stone delivered on Centre and Herron avenues by Mr. Evan Jones, the contractor, and that Mr. Hunter, the Commissioner, had condemned a portion of it. We have since been assured that no blame can attach to Mr. Jones. He is entirely in the hands of the Commissioner and charges for no stone that is not approved by that official. In regard to Herron avenue Mr. Jones has not yet delivered any stone save a quantity which he gave the city for nothing for the purpose of filling up some ruts. His instructions to Mr. Hunter are that if there should happen to be any stone, among those furnished, that are not first class, to use them for filling up purposes, without charge to the city. The gentleman is too long and too favorably known in our city for any allegation of this kind to be made against him.

A Gigantic Skeleton.

Mr. Jacob Keller, who is engaged in dredging the Monongahela river, near the Point, has taken out a section of the spinal column of the mammoth or mastodon which is buried in the bed of the river, and to the discovery of which we have already referred. The entire skeleton will be taken out as soon as the water recedes. A tooth of this fossil can now be seen at Mr. Keller's residence, corner of Eighteenth and Sidney streets. It is a curiosity. It weighs over ten pounds, and bears the mark of having been in the jaws of a monster animal. The gentleman last week took soundings of the river bed in which the skeleton is now deposited, and has discovered that sixty-five feet are taken up in the sandy soil of the river bed. Mr. Franklin Platt, the Assistant State Geologist, was in the city several days ago, and advises the recovery of the skeleton in the interest of natural science.

The Helpers to the Puddlers.

The troubles of workingmen, it appears, never cease. This, from the Manufacturers *Review*:

"There is considerable ill-feeling on the part of the helpers towards the puddlers in those mills where, in the change from double to single turn, the puddlers have doubled up, or worked 'level handed'. This has of course thrown the helpers out of work entirely, and they are highly indignant at the result. It is well known that the helpers stood by the puddlers during the lock out when they might have had work as puddlers, and they complain of this treatment. Here is the protest, published in the labor organ, from one mill:

We, the helpers at Zug's mill, protest against the manner in which we are treated by the fore-hands, now that the mill is on single turn. We stood by these men during the lock-out last winter, and helped them through all we knew how, and now, when the hot weather is on, and we are needing work, they put us away from our jobs, and put on 'boss' puddlers level-handed. This is unjust and unfair, and we think, 'piling it on' to us very heavily. Now, Mr. Editor we desire all helpers to give these men the 'go-by' when the mill starts double turn again.

Respectfully, THE HELPERS.

At some of the mills the owners have not allowed the helpers to be discharged. If, as the puddlers claim, they expect trouble this winter they are preparing themselves for it.

THE SECOND.

Another Drowned Man at Ellanova.

It is about a week since a drowned man was inquested near Ellanova Springs. Last evening developed another. A man, evidently not over twenty years of age, was found floating in the stream at the point named. He was smooth faced, wore a striped shirt and mixed grey pantaloons, together with a blue smock frock coat. On his person was found a leather pocket book with a few cents in it. The jury returned a verdict of "found drowned." The Coroner will hold the remains for identification until this afternoon.

Ordinance for a lateral sewer on the first alley east of Monterey street, from Jackson street to Ledlie street. Passed.

Ordinance for a lateral sewer on Monterey street, from Jackson to Ledlie streets. Passed.

Ordinance for a lateral sewer on Western avenue from Fulton street to a point 350 feet eastward. The ordinance was amended by reducing the length of the sewer to 300 feet, after which it was referred back to the committee to be printed with the amendment.

Ordinance authorizing the issuing of $10,000 worth of sewer bonds for the construction of a sewer on McClure avenue. Laid over for the present.

Ordinance for a main sewer on McClure avenue, from the mouth of the old stone culvert at Eckert's, northwardly about 1,100 feet to an angle at Harberth's lot. After a lengthy discussion the ordinance was lost by a tie vote of 8 for to 8 against.

The ordinance authorizing the issuing of $10.000 sewer bonds, laid over temporarily, was taken up and laid over finally.

Ordinance for the extension of the Main sewer on Federal street, from its present terminus at Pearl street to Samson street. Passed.

Also, profile of grade on Church avenue. Approved.

WATER.

Mr. SMITH, Chairman of the Water Committee, presented their report, which was received. The following printed resolutions accompanied it:

Resolution for the refunding of $140 overpaid water tax to Hartje, Wylie & Co. Passed.

Resolution for a four inch pipe on Fremont alley. Referred to the Water Committee.

Mr. SMITH presented a petition for a sewer on Western avenue. Referred.

Mr. COCHRAN, an ordinance for a sewer on Pasture alley, from Grant avenue to Allegheny avenue. Referred.

Mr. KNOX, a resolution changing the the names of streets where they are duplicated. Referred.

Mr. HUCKESTINE moved to reconsider the vote by which the ordinance allowing Thos. A. Weger the right to erect two frame buildings on Braddock street was lost on July 29th. Lost.

The business from Common Council was taken up and all actions of that body concurred in, except as follows: S. C. adhered to its action in adopting that portion of the Finance Committee's report, stating that the committee had taken an adverse action in regard to the resolution relative to collecting vehicle licenses from parties who paid toll quarterly on the roads within the city limits.

CITY PRINTING.

Mr. SLACK called up the ordinance defining the manner in which the contract for doing the city printing shall be awarded.

Mr. SMITH moved to postpone it indefinitely.

Mr. HUCKESTINE thought the motion was not right.

Mr. SMITH said the reason he made the motion was because he did not like the ordinance as it now stands, and if it is now passed it is so late in the year that it would be inoperative during the present year. He did not want to kill the ordinance, but wanted it in a better shape. If the members did not desire its postponement he would offer a number of amendments.

Mr. KNOX said he would like to see the ordinance kept moving anyhow. He thought councils should show that they were not afraid to handle this matter.

Mr. WALTON said that councils had organized before the Wallace bill had been accepted, and therefore the printing done so far will be paid as heretofore.

Mr. REED desired to have the matter settled now. It had been before council for a number of months, and the bill should either be adopted or lost.

Mr. VOEGTLY said that he thought the matter should be disposed of now, and that the ordinance, as it now stands, suited him, but if any gentleman had any amendment by which he thought it could be improved it might be submitted. He moved to concur with the action of C. C. in adopting the ordinance providing for two English and one German papers. The ordinance was a good one as it stood, and he thought it should pass.

Mr. SLACK moved that the matter be laid over and made the special business of the next meeting, to be taken up immediately after the reading of the minutes.

Mr. VOEGTLY did not think it was necessary to postpone at all, but to dispose of it at once.

The question being called on Mr. Smith's motion, it was lost.

Mr. SMITH then moved to strike out all that portion of the ordinance requiring the proprietors or managers of the newspapers bidding to submit sworn statements, or such other evidence as the Printing Committee should desire, as to the circulation of their respective newspapers in the city of Allegheny. Also to insert that this ordinance shall go into effect on January 1st, 1876.

Mr. PATTERSON (Mr. Slack in the chair) said that this was the worst bungled up ordinance he ever saw. All that was required was that the Controller advertise for bids, and the contract be awarded to the best bidder. He moved that the matter be referred back to the committee, to prepare an ordinance requiring the Controller to advertise for proposals, to be submitted to Councils when the papers shall be elected.

Mr. MCKELVEY said he favored the motion, but he thought the matter might be referred to a special committee.

Mr. SMITH then read the section of the Wallace act relating to the matter.

Mr. KNOX said that the law clearly required the contract to be let to the lowest responsible bidder.

Mr. CALLERY wanted to know by what right Councils could make any distinction in regard to the newspapers. He thought newspaper men should have no more rights than any other men.

Mr. PATTERSON moved that the Printing Committee submit an ordinance requiring bids, to be reported to councils when the papers shall be elected.

Mr. CALLERY favored the reference of this matter to the committee without instructions. They had submitted a good ordinance, and he didn't think anything more was needed.

Mr. KNOX thought the ordinance should be referred to the committee to either approve it or prepare a new one.

The question being called on Mr. Patterson's motion it was passed.

Adjourned.

COMMON COUNCIL.

L. P. STONE.........*President pro tem.*
R. DILWORTH.....................Clerk.

This branch was called to order at eight o'clock by Mr. Golden, on whose motion Mr. Stone was called to the chair, the President being absent. The following members answered present at roll call: Messrs. Bedell, Brown, Burton, Biber, Born, Cooke, Cochran, Drum, Erwin, Gerber, Gschwend, Golden, Hopf, Hughes, Kredel, Lautner, Moul, McGuire, Nesmith, Remensnyder, Stone, Schmitt, Thompson, Jas. Wilson, Wall, and Robert Wilson.

The minutes of the two previous meetings were read and approved.

NEW BUSINESS.

On the call of the wards the following business was presented.

Mr. BROWN, remonstrance of property holders on Boyle street against the purchase of the house and lot of George Smith, at the head of Boyle street, for the purpose of opening a street there. Referred.

Mr. COOK, resolution for the establishment of a grade on West End avenue, in the Eleventh ward. Referred.

Mr. WALL, petition for a change of grade on Wood's Run avenue, in the Eleventh ward. Referred.

Mr. GOLDEN, petition for the opening and extension of Morrison avenue, in the Tenth ward. Referred.

Mr. ROBERT WILSON, list of Poor Farm lots sold August 11, 1875. This was a report from the Committee on Poor Farm, giving the number of the lot, name of the purchaser and amount paid for it. It was approved.

COMMITTEE REPORTS.

From the Committee on City Property, Mr. COCHRAN submitted a lease of the municipal property, on Smoky Island, to the Industrial Exposition for a term of fifteen years. It was approved unanimously.

Mr. COOK presented an ordinance authorizing the erection of a wooden building, for Exposition purposes, on Smoky Island. Referred.

Mr. LAUTNER, Chairman of the Market Committee, reported the receipts for July, to be as follows:

Clerk of Markets	$2,445 07
Second Ward Scales	217 18
Diamond Scales	108 92
Total	$2,771 17

Received and filed.

The Gas Committee, through Mr. BROWN, presented a resolution for gas lamps at the following points: At the corners of Perrysville and Wilson avenues, Harrison and Drum streets, Chartiers and Stewart streets, Chartiers street and Hopkins' alley, Chartiers street and Faulkner's alley, and one on Jackson street, midway between Arch and Federal streets. It was passed finally.

FAIRMOUNT STREET.

Mr. ERWIN called up an ordinance for the relief of the property owners on Fairmount or Henderson street, between Federal and Sandusky streets, from the cost of construction of stone walls, and providing for the payment of the cost of the same. It was adopted in Select Council on the 8th ult. Mr. Irwin said that the improvement had been put through without the consent of any of the property owners save two or three, and that the manner in which some of the property had been damaged was an outrage. Fifteen hundred dollars had been assessed as benefits against one piece of property, when the fact of the matter is that it has been ruined.

Mr. COCHRAN said that it was quite true that the improvement was a mistake, and was the source of hardship to many, but he would not vote to relieve Mr. Huckestine and Mr. McNaugher from the payment of their assessments. If the grade had been made three feet instead of nine feet the improvement would have been all right.

After some further debate, in which Mr. Golden denominated the improvement as an infernal outrage, the ordinance was passed by a vote of 21 to 4.

AMENDING THE LAW.

Mr. DRUM presented the following:

Resolved, That the City Solicitor be and he is hereby instructed to prepare an amendment to the present grading and paving law, authorizing the City Councils to appoint viewers at the completion of the grading and paving of any street, lane or alley, where there are parties owning property abutting on the same, claiming that their property is not worth the amount assessed or is injured by the grading of said street, and that the viewers proceed to make the assessment, as now provided for in the law relating to the opening of streets.

The resolution was passed.

Mr. ERWIN, resolution for flag stone crossings on Boyle street and Union avenue. Referred.

Mr. BURTON presented the following resolution which would seem to imply that the city, in addition to paying for the stone wall on Fairmount street, is to be asked to pay also for the stone wall in the Fourth ward. Is the latter a natural sequence of the first?

Resolved, That the Controller be authorized to certify a warrant in favor of Messrs. McNaugher & Co. for the amount of their bill for the construction of the stone wall on the south side of Church avenue, in the Fourth ward. Referred.

Mr. NESMITH, resolution for sewer box on Heckelman street, at the crossing of Long street, Eighth ward. Referred.

Mr. KREDEL called up the ordinance prohibiting persons from trespassing upon railroads and railway cars, under a penalty not to exceed six dollars. Indefinitely postponed.

Mr. GOLDEN called up the Viewers' report on the opening of Pasture Lane. Approved.

Mr. COCHRAN, ordinance amending an ordinance relative to the peddling of certain articles within the city limits, reducing the license fee from $50 to $25, and authorizing the City Treasurer to issue monthly licenses to parties peddling berries and small fruits. Referred.

The report of the Finance Committee was read, and on motion of Mr. Golden that portion of it relating to exemption from vehicle license was referred back to the committee with instructions to report an ordinance exempting all persons residing beyond the toll-gate lines from payment of vehicle license.

Ordinance authorizing the refunding of certain overpaid taxes, aggregating $94.21. Passed.

Adjourned.

COURT PROCEEDINGS.

United States District Court.

(Before Judge McCandless.)

N. Marshall & Co., bankrupts. Petition of A. L. Grobfelder & Co., creditors, referred to Register Willard.

M. K. Colvin, bankrupt. Assignee's report approved and sale confirmed.

Andrew D. Miller, debtor. Rule on the American Bank, of Pittsburgh, the Duquesne Bank, of Pittsburgh, and the Bank of America, of Philadelphia, to show cause why they should not elect to accept the terms of composition, was discharged.

In the matter of A. H. Mills, bankrupt, the assignee made his report for July.

Martin Gannon, scrap iron dealer, First ward, Allegheny, filed a voluntary petition in bankruptcy. Referred to Register Harper.

A Hydrant Trouble.

"The witnesses will be here, sur. I soopayned thim meself, and they said they would come," was Mrs. Hall's remark to 'Squire McMasters, when that magistrate said he would go on with the case of Mrs. Hall against Miss McSteen, whom she charged with disorderly conduct.

"Three o'clock was the hour fixed for the hearing. They should be here now," replied the 'Squire. "We must go on with the case."

"You have all the witnesses here now that you need," put in Mr. McSteen.

"That's what I think," said the Alderman. "If you havn't, it is your own fault. We'll go on with the hearing. Who is the first witness?"

Mrs. Hall produced her little daughter, twelve years of age. "This is Ida," said she; "she can tell you all about it."

Ida was qualified, and stated that she and her sister were at the hydrant, rinzing a tub, when Miss McSteen came along and whipped Ida's little sister and drove her away from the hydrant and knocked her senseless.

Another of Mrs. Hall's children was next called and corroborated her sister.

Then Mrs. Hall made a speech and extolled the virtues of her children in every pacticular.

Miss McSteen was next called and swore that as soon as she approached the hydrant to get a bucket of water that the two Hall girls attacked her and beat and abused her considerably. She was scratched about the face and hands and had her hair pulled.

"Shut up your mouth, you dirty big liar," suggested one of the Hall girls.

"Order!" cried the Alderman.

"All I want people to do," said the prosecutrix, "is to let me and my children alone and if they do wrong, I'll subdue them."

"It appears, Mrs. Hall, that your children were the agressors in this matter. They attacked Miss McSteen first."

"They did, did they? Then show your marks. Where did they scratch you?"

"There they are," and Miss McSteen exhibited her hands.

"We have heard enough of this case. Mrs. Hall we will let you off on payment of costs."

"And how much are they?" she enquired.

"Only three dollars and a quarter," was the Alderman's reply.

"I haven't got it," said Mrs. Hall.

"Oh, I'll lend it to you," said a sympathizing old lady, and she pulled a five dollar bill out of the recesses of her dress somewhere. The defendant and her friends left the office, and Mrs. Hall and her children remained until the rain abated.

"So she had a lawyer, had she," said Mrs. Hall, "and how much do lawyers cost, 'Squire?"

"Only ten or fifteen dollars, in a case like this."

"Thin I'm very well satisfied. If it cost her ten or fifteen dollars, and me three and a quarter, I think they'll soon get tired shuin' at that rate," and the office was cleared.

....The Mayor was yesterday served with the rule issued by the Court, requiring him to be present on Saturday, the 21st inst., and show cause why a writ of *quo warranto* should not issue against him. The Mayor and his counsel, Marshall Swartzwelder, who was present, claimed that ten days' notice should have been given, but the constable went through the form of serving the notice, although the Mayor did not formally accept service.

CRIME IN THE CITY.

Brief Mention of Petty Criminalities.

HENRY MCKINLEY is charged with the larceny of an umbrella from D. W. Radebaugh. Alderman Milliken is wrestling with the case.

THE evening papers of yesterday published a lot of cases from Alderman Milliken's office that were reported in the GAZETTE about a week ago.

OFFICER WILLIAM ROBINSON is charged, before Alderman Logan, on oath of James Flack, with false arrest. The informant was arrested on Wednesday by the defendant, as he alleges, without a cause. Warrant was issued.

MARY SWEENY made an information before Aderman Larkin, yesterday, charging William Sweeny with an assault. She alleges that defendant threatened to make a corpse of her and called her unbecoming names. A warrant was issued.

MARY COLLINS, made an information yesterday against Rachael Herr, colored charging her with maintaining a disorderly house on Strawberry alley. The defendant was arrested, but waiving a hearing gave bail for court in the sum of three hundred dollars.

ALDERMAN MCMASTERS, yesterday took the information of Dr. Addison Arthurs against Margaret Gallagher, Maggie Connoly and others who have been, as alleged, helping themselves to some oats of the doctor's in the Fourteenth ward, and selling them. A warrant was issued.

ALDERMAN MILLIKEN, yesterday committed Erastus Polo to jail to answer a charge of nuisance, preferred by Emanuel Pablo. The parties are Italians and neighbors. Erastus, as alleged, is not particular about depositing the contents of a vault in the river, preferring to let them run in the mutual gutter.

YESTERDAY Alderman Gallagher, Eleventh ward, committed John Kerchner to jail, charged on oath of John Brown with false arrest and imprisonment. Mr. Kerchner resides in Steubenville, and, as stated, sued Brown for a due bill. The case was dismissed, and now Mr Brown retaliates. The case will be heard on Saturday.

THE CHAMPION FOOT RACE.

Yesterday Afternoon's Contest at Friendship Park—Crandall, of California, Beaten by Wheat, of Pittsburgh—Much Money Lost.

Quite a large crowd of sporting men assembled at Friendship Park yesterday afternoon to witness the foot race between James Wheat, a mulatto, of this city, and H. Crandall, of San Francisco, California, for the championship of America. Both men have good reputations as runners, and Crandall has a record of having ran one hundred yards in seven seconds. Until yesterday he was the champion foot racer of this country, having beaten the famous California Plow Boy by four feet in a contest for $2,000 a side. The race yesterday, in addition to being for the title of champion, was also for $1,000 a side. The distance was one hundred and seventy-five yards. It seems queer that a man would travel three thousand miles to run so short a distance, but to the one who lost the race it now doubtless seems a good deal more odd. "Tony" Newell officiated as pistol firer, and to the uninitiated we will state that he is the gentleman who starts the racers. Lawrence Sproal acted as Referee and Wm. Partridge and John Clark as Judges. The race was called shortly before four o'clock, and at the sound of the pistol the men leaped away, Wheat taking the lead, but he only kept it for about ten yards. Crandall then went to the front and led Wheat for about one hundred yards, when the latter, by one of those peculiar and wholly unexpected lightning jumps of his, again got the lead and held it to the tape line, winning the race in 18¼ seconds, and beating his opponent by about two yards. The result astonished a good many who confidently anticipated a victory for Crandall, and had bet their money on him. They lost heavily. Pittsburgh now has the champion boat and foot racers of America.

Wheat is matched for another race in Philadelphia, in two or three weeks, for $1,000 a side, with T. F. Landy, of Providence, R. I., whom he has already defeated once.

CASTLE SHANNON.

The Sabbath School Day.

Yesterday was the day set apart for the benefit of the Sabbath School children, and it was a grand day in the encampment. At the conclusion of the regular morning services the parents and children assembled at the altar, when the veteran Sabbath School worker, T. F. Scott, took charge of and conducted the exercises in a judicious manner, and after the singing of a Sabbath School song interesting addresses were made by Rev. Collier, D. D., Rev. Phipps, and Mrs. Rev. Mayall. In the afternoon Rev. Wallace, J. F. Dyer and G. G. Westfall addressed the children in an appropriate manner. The exercises were interspersed with music which was excellently rendered by the choir under the supervision of H. B. Lewis. Unfortunately about 3 o'clock the camp was visited by a very heavy shower which continued for fully an hour. The attendance was good, but had the weather been more favorable no doubt there would have been many more present. From the interest manifested by the children it is judged they were greatly instructed and benefited. The evening exercises were commenced at seven o'clock by holding a general prayer meeting; then followed the evening sermon which was ably delivered by Rev. Cowl. He chose for his text the 21st verse of the 1st chapter of First Corinthians.

The Pittsburgh Conference of the Methodist Church will hold its annual session on these grounds, beginning on Sept. 1st.

BASE BALL.

Notes Caught on the Fly.

The Braddock's club have notified their friends that they cannot play the Xanthas on Monday next, and probably not this season. They say that the latter proposes giving them half the gate receipts at Union Park, and demanding the same amount for themselves at Braddock's, or as it is put, thus: Receipts at Union Park, $300—$150 to Xantha, $150 to Braddock. Receipts at Braddock's, $150—$150 to Xantha, none to Braddock. Total receipts, $450—$300 to Xantha, $150 to Braddock. We are sorry this hitch has occurred, because a game between the two clubs is very desirable, and we hope that some arrangement may yet be effected which will result in a contest.

S. B. Griffith, Secretary of the Union base ball club of Mercer, has apologized for the language used by him in a recent challenge to the Xanthas, and has issued a respectful and manly invitation to contest for the championship of Western Pennsylvania.

The nines selected from the Sheriff's and Prothonotary's offices to play at Hazlewood are as follows: Sheriff's office—J. C. Donnell, catcher; A. K. Scandrett, pitcher; W. G. Stubbs, short stop; John Pollitt, first base; E. Pearson, second base; Robert Scott, third base; A. B. Young, left field; Hugh V. Boyce, centre field; Thomas Cluley, right field. Prothonotary's office—"Doc" Kennedy, catcher; J. O. Petty, pitcher; Thomas Hunter, short stop; John Bradley, first base; G. V. Milliken, second base; J. O. Brown, third base; E. C. Miller, left field; Jack Means, Centre field; A. J. McQuilty, right field.

A very interesting game was played yesterday, at Hazlewood, between the Telegraph (employes W. U. T. Co.) and the Seven Seals base ball clubs resulting in a victory for the Telegraphers by a score of 16 to 4. Umpire, Mr. Robert Redmond, of the Braddocks.

A special dispatch received last night by the GAZETTE, from Sewickley, states that there will be no game to-day between the Independents and Braddocks.

The event of to-morrow is the game at Hazlewood between the reporters and lawyers. Persons desiring to witness it can leave on the 3:15 train.

Ladies' Good Value.

The purchase of goods of an inferior quality, even though they be low in price, is the very reverse of true economy. And especially is this true in the matter of silks for ladies wear, for in no article of dress goods does the maxim that "the best is the cheapest" apply with such peculiar force as to the different kinds of silks. Very few ladies need be informed that the Dress Goods House of Messrs. Moorhouse & Carsten, corner of Market street and Fourth avenue, has gained a reputation for dealing in the finer and better qualities of this line of goods, and at a price, too, which places them far in advance of the cheaper sorts, be they sold ever so low. They make a specialty of this class of goods, and by purchasing largely for cash are enabled to secure better rates than many other dealers, the benefit of which is allowed to their customers. But a greater profit to their patrons arises from the varied and extensive assortment kept constantly on hand, which allows the most satisfactory and pleasing selections. Ladies will find that the silks of Moorhouse & Carsten are of most excellent qualities and the prices extremely low. And in addition will be found all other classes of dress goods of equally good repute, as are usually to found in first class reputable dry goods houses. Ladies contemplating the purchase of their next new dress should visit the silk house of Moorhouse & Carsten.

The undersigned has used DR. HARRIS' SUMMER CORDIAL, and can bear unqualified testimony to its happy and immediate effects in relieving pain and curing disease.

The Down-Hill Side.

On the down-hill side of life the constitution is beset with infirmities for which Hostetter's Stomach Bitters is the best of all remedies. Invigoration is the most reliable means of resisting disease, and is particularly necessary at a period of life when the decay of the physical energies renders the system less able than formerly to resists its attacks. The cheering warmth which this prime tonic stimulant diffuses through the chilled veins, the unwonted steadiness which it gives to the tottering limbs of age, the prompt relief which it affords those maladies which are most common in the decline of life, constitute it an inestimable blessing to the old and infirm. Among the testimonials to the excellence of this most salutary medicine of which its proprietors are constantly in the receipt, many are received from persons of advanced age who speak with unmeasured praise of its qualities as an invigorant and preventive.

PIC-NIC GROVE,

HULTON STATION, A. V. R. R. This Grove is one of the largest in Allegheny county, located at Hulton Station, on the line of the Allegheny Valley Railroad, only ten miles from the Union Depot, a sufficient distance to avoid the annoyance of disorderly characters who frequently disturb picnic parties at groves near the city. It is a cool and secluded place, thickly covered with beautiful shadetrees, having one of the largest and most convenient platforms for dancing in the country, and all other necessary buildings. Good cool water. Dinners furnished at reasonable rates at the Grove. A beautiful drive to this Grove, the roads being always in a splendid condition. This Grove will be rented to lodges, literary societies, military organizations, socials, clubs, churches, Sunday schools, &c. Strangers renting will be required to furnish references. The A. V. R. R. has a double track to Hulton and runs ten daily trains, under careful management, all stopping at the Grove. For terms and full particulars, inquire of WEDDELL & HOLMES, 347 Liberty street, or G.
